Winter is just around the corner That means \. . . slippery streets . . freezing temperatures.

How about your brakes? We sell nationally known Brakelek because it is more durable, more eco-nomical and because it makes brakes really safe. How about anti-freeze? We recommend Superpyro at 25c or Dupont at 20c the quart. Don't use anything else, especially if you have a car heater.

Irrespective of the make of car you drive our service is dependable. If you own a Dodge or Plymouth it is no more than good judgment to have us do the work.

Incidentally more rear axles are ruined because of improper lubrication than any other cause, during the winter. Play safe with

Behind Every Feature

THE V-8 ENGINE IS ALWAYS IN

THE V-type engine is the kind you find in the cars of people to whom cost means little and style means much. When the Ford Motor Company introduced this engine to the low-price field, it made one of its greatest contributions to modern, luxurious' motoring with economy. But progress did not stop there. Styling, appointments and every other feature of the new Ford were made to match the quality of the V-8 engine.

Without Ford resources and experience this would not have been possible in

of the 1936 Ford Is the Standard of V·8 Engine Quality

Only One Car Gives You V.8 Luxury at Low Cost
