WANT ADS COST LITTLE AND GET QUICK RESULTS

DO YOU KNOW

Our complete printing facilities make for co-ordinated production and faster delivery?

In our own plant, under one roof, we are equipped to machine or hand set each job as you place it with us, and make revisions or changes up to the last minute before going to press.

In addition, our press equipment operates continuously so that at any time of day or night we are able to start the press work immediately upon your O. K. of final proof.

Our own Bindery Department gives us control of the final phase of production. This assures you of no last minute delay sometimes occasioned by an outside supplier in the case where bindery work is 'famed out.'

Furthermore, here there is no chance of a successful printed job being spoiled by an outside bindery which may misunderstand or misinterpret instructions.

If you want co-ordinated production of your regular and "fussy" jobs and yet fast delivery, let The Birmingham Eccentric Job Printing Department handle your printing orders.

COMPLETE IN OUR OWN PLANT

Machine composition, hand composition, press equipment, bindery and mailing facilities, plus comprehensive layout and finished art work service.

The virtue of this compensation plan lies in the simplicity of determining the different classes of disability. For example, a corn on the second toe should entitle the sufferer to \$5.00 per month...

Really Rare: Talk about your long shots! The Dionne Quintuplets were a 57 million to one chance. Medical science lays just those odds against a duplication of the five world famous babies who were started in the Fox film, "The Country Doctor," which recently was shown at the Birmingham Theatre.

Only once in 57 million births do quintuplets occur according to the best statisticians, who find records of only 23 actual human quintuplets in 500 years.

KITCHENETTE

"My girl friend and I room-together. We bought a Dutch Oven Suspan and think it's grand. It sits on the table of our kitchenette, and we simply plug it in the electric outlet in the wall. We can cook a whole dinner at once, either for the two of us or for half-a-dozen people. It's like having a small electric range, (\$9.95 up, at hardware stores, furniture and department stores, other electrical appliance dealers and Detroit Edison offices.)"
