Birmingham Pays Out \$97,190.78 In Salaries **During The Year 1935**

Fire Chief Vern Griffith has is sued a warning to all local residents to watch out for leakage of gas in their homes during this extremely cold weather period. The chief stated that, while he did not danger, he wanted to notify people here to be alert to such a possible cause of trouble.

It was explained by Chief Griffith that, with the frost penetrating to a depth of four or five frequency in the people was to be a superior with the frost penetrating to a depth of four or five frequency in the people will be a superior with the frost penetrating to a depth of four or five frequency in the people will be a superior with the free penetration of the personnel and salaries paid employees of Birming-ham during a two week period. The report gives the name, causing connecting joints to spring leaks. The secaning gas, following the line of least resistance, trails the piping into the basement where it mixes with the air. Should lowed to enter there would be danger of an explosion because of the location of the furnace in the underground room.

However, Chief Griffith explain.

QUESTIONS THAT ARE ASKED ABOUT BANKING

What obligations do I have to my Bank?"

Your bank assumes important obligations when it accepts your money for deposit. In return it asks from you:

"Your confidence—for without the confidence of depositors no bank can operate successfully.

"Your support of its policy of making only sound loans of your money and that of other depositors."

other depositors.

yound, well managed bank it must awaid
depending losses in conducting its accounts.
It does this through moderate service
chayges where circumstances require.

A bank is primarily a community enterprise. While good management and good service are essential it cannot operate successfully without the confidence and aid of its depositors.
