MAGICIAN TO TELL SECRETS OF ART John Mullholland at Town Hall in Fisher Next Wednesday

John Mullholland, world-renowned magician, entertainer and lecturer, who Lowell Thomas in a recent broadcast described as "one of the greatest, if not the greatest, of the great magicians in the world," will be the Town Hall celebrity in the Fisher Theatre, Wednesday morning, January 23, at 11 o'clock.

In his startling and unusual lecture performance, "Magic of the World," Mr. Mullholland will examine the magic marvels of both the ancient and modern worlds, including pagan miracles and religious magic, and will illustrate the lecture with skillful demonstrations of breath-taking dexterity which he has collected from the farthest corners of the world.

John Mullholland learned the magic arts of the black arts of North Africa from the Sultan wizard, Mohammed, who learned the venerable secrets of Chinese wonder-workers from a great wizard in Peking in Canton, India, he sought out the Bakshi family who had mastered the art of illusion in India.

Mr. Mullholland's latest book, "Story of Magic," was recently reviewed by the Detroit Press for the news columns of papers through the nation. He is the author of many other articles and books, among them "Quicker than the Eye" and "Magic in the Making."

OSTRICH university is located in one of the nation's largest cities. The name was bestowed because the seat of learning always adorned with fine feathers while the head ducks under cover whenever danger threatens.

"What," said the most celebrated of O. U. Deans (a gentleman who, by the way, is just as dizzy even though he does not toss for the Cards), "Copy those Southern college boys being honest about the aid society at the other members of the faculty assembled in solemn conference. Why, it's preposterous, isn't it, Mr. Yessir?"

"Yessir," answered Mr. Yessir who, of course, was faculty member of the athletic committee. "Why they don't know nothing, it's just them who say radical. Why, they ain't got a thing on us. Why—"

But since there are so many institutions of higher education which continue as pure as the driven snow (beneath the railroad tracks) so far as athletics are concerned, the reporter does not wish to single out one university for special mention.
