SUGAR WAFERS ...

ad, kids . . . that car's got BRAKES!"

No one needs to be reminded that safe driving in winter, more than at any other season, calls for a car that is safe,

Then why not start this new year with Then why not start this new year with the "safest car on today's highways?" Terraplane—with more new and impor-tant safety features than any other low priced automobile ever had!

Bring Safety up to Date!

for safer riding, safer steering, safer ror sater ruang, sater steering, sater steepings, Terraplane brings you Radial Safery Control (patent applied for). Here is a revolutionary principle of front axle and spring design which new owners from coast to coast are hailing as the greatest safery feature in many years.

None but the best prices are good.

None but the best brakes are good None but the best brakes are good enough. And no other low priced car but Terraplane meets that demand with Duo-Automatic Hydraulic Brakes (patent applied for). Latest and best hydraulics with a separate safety braking system that takes hold automatically if ever needed.

For added safety on the highway—greater steadiness on curves—two more

and the Rhythmic Ride.

Safer Bodies! Safer Chassis!

The world's first safety engineered chassis is now combined with America's first bodies all of steel, and seamless roof of solid steel.

There is extra safety, too, in Terraplane's record-breaking performance, to take you out of traffic "tight spots."
And in the Electric Hand, an optional extra, for easier gear shifting and safer

driving.

Drive safely in 1936—in a car that you

Drive a new Terraplane.
