Young and pretty Betty Grable, screen actress, apparently is having a big time sailing about the Biltmore pool at Santa Barbara, Calif., on the back of "Cold Venture," her seahorse. And "Cold Venture" is having quite a bit of fun himself, if you can judge by his embarrassed equine smile.

Fashion Tips

The main feature in most of the summer frocks is the glove-like fit around the hips and waist. Sweeping fullness may begin at the knees but higher up there will be a snug fit.

One lovely black model of black lace has a slit in the underskirt up to the knees.

With black lace frocks, Paris is showing how of fragile black lace on a foundation of white chiffon.

Split skirts are being shown in gold models, also. It is predicted that these will be popular with American women.

And now we hear that the transparent blouse has given us back the long lost corset cover. We doubt if they will ever achieve the fullness they once had, however.

Paris is definitely emphasizing hips. Basques, peplums and a suggestion of bustles are noted.

Colored gloves for evening are very popular in Paris. With a pale blue costume, one may see red gloves and slippers, while green ones will be worn with gray, black or white frocks.

Pretty evening models of chiffon have the skirt and bodice of the same color, but the upper part of a pale shade while the skirt is of a vivid hue.

Mr. and Mrs. George D. Clark of Ravine Road, and their son Bunker, are leaving Saturday to spend two weeks at Cass Lake in Minnesota. On the way they will stop at Valparaiso, Ind., Duluth and Minneapolis.
