## Retiring Chairman Pays Tribute To Extension Plan

The touch of nature that makes the world is something very real to Mrs. William McCallum, who for the past three years has been extension chairman for the Michigan branch of the Women's National Farm and Garden Association in the national organization, is resigning from the state office to continue her work in the national group. She has added five new units to the state branch during her term of service.

To Mrs. McCallum, the extension work of the Farm and Garden Association is the magic touch that brings women of varying tastes and interests together in the kinship of a common interest—that of making the home garden a place of beauty.

During Mrs. McCallum's term of office as extension chairman, the Birmingham unit, of which she is a member, has come to be regarded as the "Mother Unit" to which the younger branches turn for inspiration and encouragement. As an emissary for extension, Mrs. McCallum has been in good position to see how the work promotes good fellowship and creates a sort of family tie that binds the units together in friendship and understanding.

The Birmingham unit as one well established and with an active and successful career, has served Mrs. McCallum as a pattern in organizing new groups. As a result, pilgrimages have been made here to attend meetings and visit gardens of members, by those interested in forming new units in their own communities.

Units Seek Aid  
Recently, 12 members of the Port Huron unit journeyed to Birmingham seeking new ideas for their own organization. When the Rochester unit held its flower show this year, the committee sought

Mrs. McCallum's advice as to methods followed by the Birmingham unit.

The interest aroused through extension work is shown, according to M. A. McCallum by the many requests from communities wishing assistance in organizing new units. One of the most recent of these, Mrs. McCallum said, was in that of a letter from St. Marie. A group there, which had been following the activities of the Birmingham unit through the columns of The Eccentric, had decided to organize a branch, and asked for help from the State Extension Committee.

In the three years that Mrs. McCallum has directed the extension work of the Association in the State, she has organized new units in St. Clair, Port Huron, Rochester, Plymouth and Northville. The two latter are the only units in the State having been organized May 1 and May 25th, respectively.

Until two months ago, Mrs. McCallum carried on the work of extension alone. At that time, because of the increasing demand for work, a committee was organized. Those appointed were Mrs. E. E. Schaffer of Detroit, Mrs. M. V. Castell of Dearborn, Mrs. Walter Fenton of St. Clemens, Mrs. Fred Schuman of Detroit, Mrs. Shirley Stewart of Port Huron, Mrs. E. M. Brigham of Battle Creek and Mr. L. R. Martell of Rochester.

Work Leads To Peace  
The fellowship made possible through extension work is an important factor in preserving world peace, Mrs. McCallum believes.

If only more women were interested in gardening and home, we would have greater defense against the danger of war, "she explained," the common love of gardens and flowers could create an atmosphere of peace and contentment throughout the world.
