Fashion Tips

If you are having any trouble deciding whether to buy a large or small hat, just remember that the one which is the most becoming to you is the one to select, as either the large or small hat is smart.

As to its material, there is any variety, just for the choosing. Feathered fabrics for the long days and the ever-present but always smart, felt for important occasions. For the who go in for the unusual there are even hats made of glass fabrics in church-window shades.

Gar Wood QUOTES MR. EDWARD ROGERS

"Can you imagine heating a home like mine all winter for \$82.25?" asked Mr. Edward Rogers, 1221 1/2 Outer Drive, Detroit, "That is all I spent for fuel from October 1, 1934, to May 1, 1935. In the same period this past winter, in spite of all the zero weather we had, my fuel bill was \$69.10. The Gar Wood oil heat costs less than coal!"

"We use our Tempered-Air for summer cooling too, and it works to perfection. Our home contains 22,960 cubic feet, exclusive of attic space."

Hundreds of Detroit home owners enjoy the same low-cost luxury as Mr. Rogers. Clean, automatic oil heat—filtered air, humidified air, and scientific blower ventilation.

That's why more than half the homes built in Detroit during the past year, at a cost of \$2,000.00 and over, were Gar Wood equipped. Telephone for complete information.
