Until Sunday, May 3, Charley Gehring and Al Simmons of the Detroit Tigers had not failed to hit safely in each of the fifteen games Detroit had played since the season opened. They were the only American League batsmen to extend their consecutive hitting streak that long. But when Gehring was stopped, Simmons halted also. It was Wes Ferrell of the White Sox that put an end to the two Tigers' hitting sequence, Leon Goalin being the only member of the championship to make a safety off the crafty North Carolinian.

Lynn Lary of the Browns was the runner up to Gehring and Simmons in consecutive hitting. The St. Louis infielder being stopped by George Blahodier after he had come through in his first eleven games. Rip Keadell of the White Sox batted safely in his first eight games and then was possessed by Victor Sorrell, Ervin Fox of the Tigers batted safely in nine of his first ten contests but failed to connect in twice at bat against Stratton and Brown of the White Sox in his tenth effort. Rabbit Warbler of the Athletics drew blanks in his ninth game, his only miss in his first eleven contests.

When Oscar Melillo of the Red Sox hit into a triple play at Boston, recently, it was the second time this year the star second sacker had had such a doubtful honor. He turned the same trick in an exhibition game when the Red Sox were on their way North from their training camp.

STUDENT CHATTER

By THE CHATTERBOX "The sky is dotted with counting stars, Hovering and shining, basking the world In their glorious light. And so bright, Another star, larger and brighter by far Than all the rest, rises and soars to Heaven; There, like a guardian angel, And o'ershine them all." Class of 1936, the path leads upward. The motto of the state of Kansas is "To the stars through difficulties" and will light you along it for your motto. For the trend today is ever upward, and the way is indeed beset by many pitfalls and difficulties. The clouds before you, dotted with the stars of other graduating classes which have preceded you, yours is the new star. You are about to rise on the horizon, to come 7,000 miles into the world to give it all the fine, clean, American quality you possess. You must assist in the enlightening of this world, and in the good that you do, realize that you go forth stands out above the rest, then your star will have a long "life" as a guardian angel.

We are here in this sphere to work up a union of good for the good. You are about to receive your opportunity to step into the world to put your shoulders to the wheel and pull together side by side with the youth of today. Youth will be the governing factor in the world tomorrow. An educated youth, aware of the futility and hopelessness of conflict and the need for world peace, education and enlightenment, will take over the reins of government and do away with war and corruption and vice and substitute for them American ideals, the ideals of peace, cooperation, friendly international relations, knowledge, freedom, the ideals of which the United States are founded.

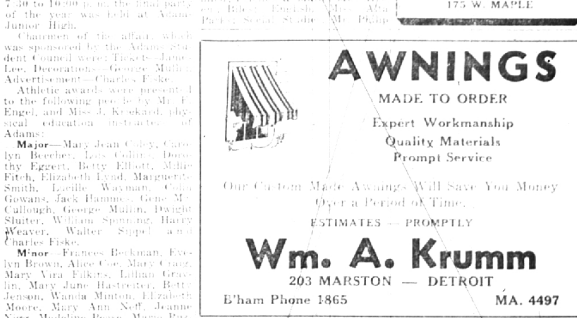

You are the new star, Youth. Your star is rising to take its place with the others. Will you climb higher than the rest, reach the stars, heaven, themselves? This is your opportunity. Grasp it!
