Low price IS NEWS only when Value IS HIGH

When Cadillac presented the new V-8 Series 60, there was genuine news in the announcement. For the Series 60 offered the proverbial Cadillac advantages in engineering, performance and quality—yet it was especially designed for the personal use of its owners. But the most arresting revelation of all was the price—for the Series 60 cost less than a used car in more than twenty years. Low price alone is never news. But when so low a price is combined with so much quality—price becomes news of the first importance.
