

TWO 1915 AUTOS GET NEW LICENSE PLATES While the outstanding feature of the issuance of titles, licenses and stickers for automobiles by the Department of State is the volume of new cars, clerks note with interest the proof of the endurance of some of the sturdy old ones as shown in applications. Within recent days, 1916 license plates have been issued for two 1915 automobiles. The Olds Motor Company of Lansing, however, has just secured a Michigan title to a 1911 car purchased by that company at Roxbury, Massachusetts.

"I-Spunky Jones"

I guess it doesn't make much difference how long a fellow's name is, because the only time he hears it is on Sunday, when his folks hear Sunday School. The rest of the week a boy's body calls me 'Spunky.' My body calls me 'Spunky.' I asked my Sunday School teacher to call me 'Spunky' because the boys giggle when they call me the roll, and says 'Marrington Weather.' 'Here,' she told me, 'I have to call you by your whole name on Sunday Sunday School. That's why I call it my Sunday name.' But, gosh! I like Spunky better myself, an account of my folks calling me that name. When I was a baby, that was the name they called me. I got a bad cold when I was two years old and my folks called me 'Spunky' for a week. My folks called me 'Spunky' for a week. My folks called me 'Spunky' for a week.

State Spending Too Much Michigan is not in complete accord with the sales tax, agreed that it filled a breach in revenue received by the state. The state's first set of annual property taxes in delinquency. But I want to get back to the point. The observation shows me that in most cases, the public officials themselves are spending more money more times than they vote for.
