STUDENT CHATTER

THE CHATTERBOX

An interesting experiment was conducted over the student control day, Friday, known as Student Control Day, during which day the control of the school, except for the principal and the senior class representatives, was given over to members of the student body.

Putting the student on their own, so to speak, was a good plan, a challenge to the students.

Our track team is really making a splendid showing. They have come safely through three meets unopposed, and give promise of finishing the season undefeated in regularly scheduled meets.

It is a shame that such a team is forced to practice upon an artificial field as the high school must confess to owning Dixie Field.

What IS it that makes a FINE car FINE?

In every car that is manufactured, there is some sort of compromise between quality and price.

If you build to a price standard, you sacrifice quality. If you build to a quality standard, you sacrifice low price.

Cadillac has no criticism for those who build to a price. But, for itself, it prefers to let quality be the order of the day.

Always, Cadillac builds as finely as it can—and lets the price fall where it may. That is why LaSalle cannot be duplicated at or near its price.

If you want LaSalle style, beauty and quality, you must buy a LaSalle. There is no substitute.
