Re-Elect David C. PENCE PROSECUTOR

Republican

HIS RECORD DISCLOSES THAT: 1. The criminal docket of Oakland County has been kept the lowest in years...

2. He conducted the first Countywide Police School. 3. He promoted an active campaign to correct the conditions afflicting youth.

4. He organized the Oakland County Law Enforcement Association composed of all of the law enforcing officers of Oakland County.

IN THE WORD OF SPORTS

Minnesota's Gridiron Juggernaut, Running Long String of Consecutive Victories, Looks Like Notre Dame's Successor for Nation's Grid Crown

Across the nation Minnesota's powerful gridiron machine rolls these days, perhaps on to another national championship. If it does, to Coach Bernie Bierman, inset, will go the laurels. One of Bierman's great facilities has been his ability to pick the right men, such as Francis (Pug) Lund, shown above as he carried the ball for the northerners.

BY PHILIP MARTIN IF the Minnesota gridiron juggernaut again rolls along to a national championship this fall, it seems highly probable that this writing, Coach Bernie Bierman can climb right up on that throne vacated by the untimely death of Knute Rockne...

seventy contests without a loss, but because most of these victories were scored against minor colleges, his winning streak isn't recognized as official.

Gophers again proved their mettle by smashing their opposition, carrying on the unbeaten tradition of previous seasons.

THE DETROIT EDISON COMPANY

GENERAL OFFICES 2000 SECOND AVENUE DETROIT, MICHIGAN October 27, 1936

TO THE CUSTOMERS OF THE DETROIT EDISON COMPANY: This letter is about Detroit Edison rates for electric service.

The Michigan Public Utilities Commission has made a long-time study of our rates, and held public hearings. It has issued an opinion which shows the wide scope of the study and also shows the Commission's fair attitude.

The present General Commercial Rate is not changed. Neither is the rate for large blocks of high tension electricity, sold to customers who have the knowledge and means to manage that high-power energy.

About the new rate for residence service. This makes some reduction to every customer except those who are paying the minimum bill of forty-five cents per month.

The Commission in its opinion recognized that no figures set up for today could be correct for evermore. They see that heretofore we have given to our customers the advantage of every economy which we have been able to make.

About taxes. Not so long ago there was collected from us in taxes, payable to the United States, or the State of Michigan, or the municipalities where we do business, 7 cents out of every dollar which you paid us.

The story of electric rate reductions is at its end for quite a while. We want you to notice once more that every economy that we have been able to pass on to you in amount to millions of dollars during the depression years—has been passed on to you in rate reductions.

Just one last word—maybe some of you rather like to pay taxes. If so, you presumably know what the taxes are spent for and whether they are spent wisely and economically. We have our own opinion about all that, but this is no place for us to offer it.

THE DETROIT EDISON COMPANY (Signature) President
