

There are people in the world who find it too easy to hate others—not a genuine, inflamed hatred, but a hatred composed of intolerance and lack of understanding.

A Roaring Motor—A Swirl of Dust—A Yelp—And "Bubbles" Is Another Hit-Run Victim

Editor's Note: In reportorial work, we sometimes appear to be calloused to accidents, injuries and even death, recording them, as we do, regularly week after week. However, there always comes a time when some poignant bit of grief, reaching our desk, strikes deeply.

It doesn't mean, necessarily, that some human being has suffered or lost his life. Read the letter printed below and you will understand how the loss of a dog has deeply affected not only the writer but the owners.

The Editor, September 14, 1936 The Birmingham Eccentric, Birmingham, Mich.

Dear Sir: Yesterday morning, September 8th, a car sped by our house, killed our nice female Scotch dog, and dashed on, never stopping to pick her up or notify us. She was too fat a little while ago, but knowing it, it's horrible to think of such a person hitting your child, and there is always that possibility.

If you'd known "Bubbles," you could appreciate how "sunk" I feel. My children and their friends adored her. She was eleven years old and in her fourth year. She has won blue ribbons both in England and America. She is registered in the Kennel Club and the American Kennel Club. Her name was "Rehland Revere" and she was known as "Bubbles."

Every year she presented us with puppies—loved to burrow for them. Her name was "Rehland Revere" and she was known as "Bubbles."

Air Conditioning Has Three Classes

Many people think of the term "air conditioning" means cooling exclusively, and that air conditioning is necessary only during hot, frank, summer days.

Why FRANKLIN VILLAGE "The Town That Time Forgot?"

It represents an ideal that is unique because it does not embrace the civilization of a suburban countryside and the fast sale of standardized lots and frontages.

It is free from the inconveniences that once marked country life; careful plans have been made for shopping facilities, schools, churches, and the like.

City traffic, city noise, and city crime that have made so many suburbs no better than the city itself, will not follow you to Franklin Village. It is permanently suburban.

Restrictions really mean something. They are exacting to a degree that amounts to actual protection.

If you contemplate a change of residence, visit Franklin Village as soon as possible.

REAL ESTATE AUGUST SALES VOLUME CLIMBING

Real estate sales volume went up again, fractionally, in August, continuing a climb that has been unbroken since April, though it had a pronounced interruption in the first months of the present year.

ADVICE TO A YOUNG MAN

When asked what he would do if he suddenly lost all his wealth, the late James J. Hill, noted railroad builder, is said to have replied, "Well, I'd take \$5,000—"

"Wait a minute," said his interviewer. "You haven't got \$5,000—you're supposed to be broke."

"Then," said Mr. Hill, "I'd set to work and save it."

Good advice from a man who started at the bottom—and got to the top.

Birmingham or Bloomfield — it's the same story

In Quanton Lake Estates twenty odd houses have been built in the last few months. Harrowgate has a record of nine new homes (there are a couple of beautiful ones under construction which we have for sale).

In South Cranbrook, Bloomfield Hills, a splendid new house is well under way, and another is to break ground in the next few days.

In Glemsleigh, on Lone Pine Road, two new residences are under way.

All these developments, which are under our management, are so far ahead both home building and site sales that it seems to leave no question as to where to find the best values.
