## Short Ribs and Baloney

By Harvey Baldwin

Front page news seems to be giving considerable credit to labor's new callithenic racket "the settin' down exercise." "Know action Charleys" and "Turret Joe Tommies are apparently trying to out-marathon the great Mahatma Gandhi, Rocking-chair-King Levinsky AND the god of squat "Sitting Bull" BUT while this great noble experiment is going to town, I am seriously concerned in what idleness will do to these incarcerated crumblers of motorium — I WONDER — I WONDER —

Is it possible that these broad-shouldered builders of transportation might crack up from inactivity? Is it reasonable to believe that their theme song "Time on my hands" might teach 'em off a little and throw them in the so-called league of COURSE, yeah O' COURSE.

Now I am not prophesying that such a thing shall come about BUT the "silly-patsy" page in the "Know action Charleys" who have worked hard all their lives THO have suddenly stop to buck the ball and throw them in the so-called league of COURSE, yeah O' COURSE.

If it keeps up the "fanny" boys of the sitting arena are soon liable to figure out a deal to occupy their listless hours. Maybe the "Joe McGees" and the "Turret Joe Tommies" can stir up a p. m. e. of patty-cake. WHO KNOWS but that the block test and the "Turret Joe Tommies" promoters may develop a nasty needle stroke and run into some created competition on the line.

Maybe this brain storm of mine is just a fancy. I repeat these guys will go nutty, doing nothing AND as long as they can't operate at their particular kind of work THEY may be doing anything to keep occupied and to steer clear from going screwy. The idea's no bad, it's a darn site better than get your mind go into a chive rot.

After all, dear sitters, permit me to inform you that your "squat-woo" deal is by no means new. The first Lieutenants of the "Turret Joe Tommies" were twenty years ahead of your time AND the shovel leathers of the WPA show off their muscles to fame and posterity every chapter of bench warming SITTING DOWN is not only a waste of time with you fellows, the board of Directors of your companies have been thinking about the mortgaging the furniture before you signed their application for work AND if you are to get your little fingers to get your tips of sitting success from them AND if possible, just for inspiration, start your morning workouts on their walnut swivels.

I have always been a sympathetic mug for any group with a cause behind them SO don't get the shanty that I'm trying to rib you to shame TO THE CONTRARY I am personally concerned in your welfare and attempting to give you a few baloney suggestions to keep you in the pink for your tournament. SO I suggest you get your tips of sitting success from them AND if possible, just for inspiration, start your morning workouts on their walnut swivels.

Two lines of minor importance caught the men of the department out Wednesday morning. At the home of Robert Spicer, 524 W. Brown slight damage was caused when the floor during a register caught fire. Damage estimated at \$10 in the basement of the home of Barney Bibb at 1444 Holland was caused by papers that caught fire from nearby ashes.

### WE HEARD IT SAID BY—

A. J. Hart, 372 Harmon, "in motoring back Sunday from Detroit, we were routed through on high dry ground, therefore, we saw little indication of the great proportions that the flood has taken. In coming across the bridge at Cincinnati we could see that it was just about five or six feet above the raging flood waters. They told us that the approach to the bridge would probably be "flooded within a very short time, and that it was being held open then by sand bags. "Coming into the hills, in the southern part of Kentucky it was raining very hard but as we drove out of them it was snowing and that, with sleet, made driving most precarious. We saw no indications of hurried vacation, chiefly because we were not routed through that section of the country."

### Why We Need A Balanced Budget

By RAYMOND PITCAIRN National Chairman Sentinels of the Republic

The American people have recently heard from Washington a proposal which can greet with a whole-hearted welcome. It is the assurance that a Balanced Budget is actually in sight.

It is difficult to say, of course—but every citizen with the welfare of the nation at heart will agree that these will be announced. Why?

Because a Balanced Budget means far more than a matter of book-keeping. It means a definite step toward economy in government—toward the paying-down of swollen political payrolls, reduction of overlapping bureaus, insistence on a dollar's worth of value for every dollar spent from public funds, and emphasis on efficiency rather than mere quantity in the administration of relief.

All these policies are of great value to the citizen. And if a sincere adherence to them on the part of Congress can bring a Balanced Budget, their value will be multiplied.

To Congress the job may seem a hard one. But the course has been charted. It demands definite steps toward economy in government—toward the paying-down of swollen political payrolls, reduction of overlapping bureaus, insistence on a dollar's worth of value for every dollar spent from public funds, and emphasis on efficiency rather than mere quantity in the administration of relief.

Two lines of minor importance caught the men of the department out Wednesday morning. At the home of Robert Spicer, 524 W. Brown slight damage was caused when the floor during a register caught fire.
