MRS. M. C. ADAMS IS FREED ON CHARGE (Continued from Page 1, Part 1) to close up the home and take care of what little estate she had. We wish to thank Mrs. Adams for having been doing odd jobs for my mother. Before we left we asked him if mother owed him anything for his services and he said no.

"Then four years ago he started out again for \$200 which he claimed my mother owed him. He won the suit down there but shortly afterward the banks closed and we did not have much left for ourselves. But we assigned \$100 from the sale of the house to the Bank to the young man. From that time on we have heard no more about him or the claim until this incident came up Monday evening."

Mr. and Mrs. Adams thought it was a joke when the arresting officer came to their home but changed their mind when he insisted Mrs. Adams come to Detroit. Mrs. Adams said that all the furniture that she and her husband took out of her mother's home was not worth more than \$50 and that they left most of it with a second-hand dealer to sell.

THIS AND THAT

(Continued from Page 1, Part 1) Governor Murphy of Draper, S. Alen, local resident, to the chairmanship of the State Board of Education. He will be received gratefully by Mr. Allen's many friends and admirers. It is but fitting reward for his personal sacrifice for the Democratic Party against the odds of a powerful and influential home on Westwood Drive, was defeated recently by a narrow margin for United States Congress from this District. He should bring to his new office not only the strength of his personal character but a considerable degree of able business experience.

Christmas at my home was made more pleasant by having as a guest for four days a young Chinese student from the University of Michigan. His name is Felix Peiping. This is a young man, speaking excellent English, can speak his family ancestry back 2,000 years—quite a contrast with some of our "best American families" who boast of their Myflower forebears a mere 400 years ago. The idea of having foreign students from Ann Arbor as guests is the result of international service activities by Rotarians in this city. Rotary International District, under the direction of Professor J. Raleigh Nelson, counselor to all foreign students on the U. of M. campus, is conducting a project tending to fit into a program of "international understanding, good will and peace." If you and your family would like the great privilege of inviting one or more students, (selecting your own desired nationality), to your home for a day or several days, just write to Prof. Nelson at Ann Arbor. You will never regret the extension of such hospitality; it is the next thing to visiting another land.

In past years I have also had as guests a Japanese, other Chinese, and one time a young Philippine couple and their baby. This Philippine is an outstanding one in Manila today. Felix Shend our most recent guest, was brought to our home the day before Christmas by my son, Bill, who went over for him. Felix's young family was converted to the Christian faith, helped us prepare the fireplace for "Santa's visit," having in the past been a devotee of the "Jolly Old Man." He joined with us, in spirit and action, in Christmas festivities, and his willingness to relate many customs and traditions of his own race was a liberal education, of course. Continuing office chaplain cannot help but impress you with the fact that China possesses a great culture, and will emerge again as an aggressive leader among the earth's nations.

Detective—I've got great news to report to my chief. The guy we want for those robberies is the swimming instructor at the Hillcrest Nordic Colony. Couple—Nice work. Detective—Yeah, if you can get it.
