

BACK FENCING

By A MAN ABOUT TOWN

Well, here we are again... and the merchants are all praying for cold weather, and the rest of the folks are praying that it will stay nice and balmy.

After having known the gentlemen for several years, we just found out the other day what this fellow Green was called before he decided to become known as "D. A."

There has been a lot of inquiring going around town these last few days as to how many people were killed and how many ambulances answered a call for help last Saturday night along about midnight.

Vern Griffith, our genial Fire Chief, just loves to tell stories. He does a pretty good job of it too, when but a few of his friends are around.

All was excitement around the Eccentric last Saturday morning. A certain dark-eyed little lady by the name of "K" McDougall was the center of the commotion.

A group of ladies are contacting a number of the local folks relative to a series of community dances to be held throughout the winter months at the Community House.

The Wabekian man, must have become thoroughly domesticated since his recent marriage. He probably sang that old song "Good Bye, Boys," popular some years ago which went on to say, "No more hanging 'round the town at night, No more staying out 'til broad day light, etc."

We recently found out that Bessie Maxwell, who has the ladies' wear shop on West Maple, also operates a similar shop over in the neighboring town of Rochester.

We exposed the antics of Birmingham's Chic Sale, some time ago, and as expected, he has been waiting for his opportunity to come back on us.

Boil it down Whatever you have to say, my friend, Whether witty, or grave or gay, Condense as much as ever you can, And say in the readiest way.

For if you go spluttering over a page When a couple of lines would do, Your butter is spread so thin you see, That the bread loaves plainly through.

Clean False Teeth New Easy Way No matter how uncomfortable or painful—Address to Good Manufacturing Bureau

There you have it. It's a good thought—and... it leaves us speechless. So as a warning to Chic we'll say... "Don't get caught on any assembly line, where the 'speed-up' is a part of the industrial plan for craftsmen."
