

NEW INTRAMURAL SCHEDULE SLATED

Whitney in Charge Of Senior Basketball Games At Baldwin

Under the supervision of Franklin Whitney, a new schedule of intramural activities will be introduced to the senior high students at Baldwin. The new activities will be in the form of basketball games to be played during the activity hour in the gymnasium. On Mondays, Wednesdays, and Thursdays, there will be two games, refereed by Mr. Whitney, who will be assisted by Variety Club members. The schedule is arranged so that each homeroom will play every other, excluding the boys who are out for basketball or football.

According to Principal Ray H. Bechtold, it is "to give more students a chance to participate in the physical program of the school." This change has resulted from the desire of the students for more class competition, probably as a result of the recent Field Day activities.

JUNIORS TRIM SOPHOMORE 12-8 IN BASKETBALL

The intramural basketball games were opened by the juniors and sophomores Thursday, November 4, in the Baldwin gym. The juniors outpointed the sophomores by the score of 12 to 8. Arthur Miller and Raymond McBride shared honors for the juniors, and the sophomores respectively.

The schedule will include all homerooms with the sophomores playing their games on Mondays, the juniors on Wednesdays, and the seniors on Thursdays. The playoffs of the homerooms will take place about the middle of the basketball season.

The Three P's AND TELEPHONE TAXES

Approximately \$29,000,000 of the money which the people of Michigan have paid for telephone service over the past ten years has come back to them in the form of primary school education for the boys and girls of the state.

That is because taxes assessed by the state against certain utilities, including the Michigan Bell Telephone Company, are paid into the primary school fund. From there the money is distributed among the 83 counties of the state, and helps support the elementary, grammar and high schools.

Money alone could not account for Michigan's high standards of public education. Our state has been fortunate in the men and women entrusted with this work—the superintendents of public instruction, state, county, city; the local school boards, Parent-Teacher associations, and the individual teachers.

This Company makes the largest individual payment into the primary school fund. During the past ten years the Company has paid into the fund \$28,978,000, this year's payment alone contributing to \$2,624,092.47. This is an important contribution to the school system which has educated the education and character-molding of 960,000 boys and girls—Michigan's school children today, her citizens of tomorrow. These taxes are in addition to the Company's Federal and miscellaneous taxes.
