FAT?
Lose Weight Safely with WATE-OFF
Thousands of fat women, and men too, are getting back to normal weight by means of WATE-OFF—the scientific, new drugless method for weight reducing.
WATE-OFF Tablets are compounded from pure vegetable matter together with certain mineral elements which are important for the body, especially when reducing. These tablets are guaranteed safe and absolutely free from dangerous drugs of every kind—no dinitrophenol—no thyroid or other glandular extracts—no harsh reducing salts or other harmful laxatives which physic and weaken the system and cause the flesh to become flabby and the skin to sag and wrinkle. The WATE-OFF WAY makes it possible to reduce without any such disagreeable effects. In fact, many men and women report that not only do they lose weight, but that they actually feel better and look better once they start reducing the WATE-OFF WAY. WATE-OFF Tablets are taken at the rate of from 3 to 6 per day along with generous meals which we instruct WATE-OFF users to eat three times a day, every day. The WATE-OFF WAY doesn't call for starvation dieting. We want you to eat, and as you will find, we give you menus that please and satisfy your appetite.
You've seen WATE-OFF advertised at $2.45 in such fine magazines as Pictorial Review, Physical Culture and others. Now, in its new improved form, it's only $1.19.
