

BALDWIN PILES UP THIRD SCORE

Andrews And McCarthy Stars Of Game, Carried Team To Victory

Robert (G. for "Gluefoot") Andrews is a nonchalant sort of individual...

Robert G. must have had something in the back of his mind last Friday afternoon...

Andrews and Frank McCarthy were the individual stars of the game...

Despite the absence of Jack Scolaro, stellar halfback whose absence was badly wrenched against Ferndale...

With Averell in at tackle, Andrews picked up two more touchdowns...

Lincoln Park took the ball on a punt early in the second quarter...

A clipping penalty was called on Lincoln Park on the play...

When the third quarter was barely under way, Andrews intercepted Caldwell's pass...

With the game almost ended, Bob Eitter punted to McElroy on his own ten yard line...

The team appears to be definitely on the victory road at last...

Lincoln Park substitution: Plunkert, fb, Flood, e, Perkins, g...

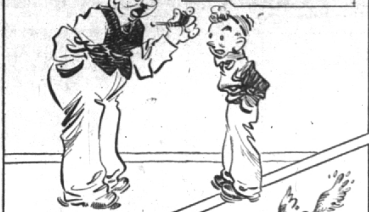

BALDWIN'S 2ND TEAM WINS THIRD VICTORY

Victorious for the third time this year the Baldwin second team defeated the Vaughan Road eleven...

The Vaughan team was obviously on the defensive most of the game...

In the other games of the season, Birmingham defeated Berkeley and Pontiac...

LIFE IS FUNNY THAT WAY. DAD IS AFRAID OF GETTING WET UNTIL... YOU WANT TO GO TO A FOOTBALL IN THIS RAIN?? WHAT DO YOU WANT? DNEUMONIA??

HE GOES DUCK HUNTING. BOY!! THIS IS THE LIFE.

Today's Game Opens Basketball Season

During activity period today, the Varsity Club and Hi-Y will clash in the Baldwin High Gym...

Coach Franklin Whitney has announced that virtually all the club members, except the football players...

The BOOK SHELF

Late Book Reviews and Literary Criticism by Doris Flint

"Present Indicative" by Noel Coward is a charming autobiography written by one of the most brilliant figures of the theater...

"The Bible: Designed to be Read as Living Literature" edited by Ernest Suhrbier Bates. It is the King James Version written in a new form and very easy to read.

"And So—Victoria" by Vaughn an Wilkins is a little too fantastic to be read as historical novel but, enough wit, romance and melodrama to make the best seller lists.

"The Life and Death of a Spanish Town" by Elliott Paul is the story of the little village of Santa Gula situated on one of the smaller Spanish islands in the Mediterranean.

"Theatre" by Somerset Maugham is a story of the footlights, whose heroine, an actress, finds that for her, acting is the most important thing in the world.

"Northwest Passage" by Kenneth Roberts is an unusually good historical novel of the French and Indian Wars. Many of the scenes are laid in Michigan.

"The Nile" by Emil Ludwig is something quite different in the way of a biography. Mr. Ludwig has written the life-story of the Nile in the same manner that he would use in writing the biography of a genius.

"An American Doctor's Odyssey" by Victor Heiser is now one year old and has passed the 25,000 mark in sales. It is an interesting story of the author's experiences in saving human lives. His adventures have taken him into forty-five different countries and around the world sixteen times.

Chicago.—In a test for speed in heavy city traffic, in which a bicycle, taxicab, elevated train, private automobile, horse, bus and street car competed, the bicycle made the trip about one mile, in eleven and a half minutes, beating the taxicab by a quarter of a minute.

Baldwin Doors Open At 8 For Early Study

In response to many complaints from the student body of Baldwin High School, Ray H. Bechtold, Principal, consented to having the doors opened earlier than 8:15 every morning to those who wanted to study...

"The Years" by Virginia Woolf is a beautifully written story of a Victorian family.

"The Bible: Designed to be Read as Living Literature" edited by Ernest Suhrbier Bates. It is the King James Version written in a new form and very easy to read.

"And So—Victoria" by Vaughn an Wilkins is a little too fantastic to be read as historical novel but, enough wit, romance and melodrama to make the best seller lists.

All see? Listen: HERE'S THE ENGINEERING MUST STORY OF THE YEAR!

Featuring the DYNAFLASH ENGINE and TORQUE-FREE SPRINGING—in the Most Modern Chassis in the World. You won't drive a hundred yards in a new Buick without realizing that something marvellously new and different is happening here. It's something that happens in no other car, in no other engine. Speeding through the intake manifold, the fuel charge hurries into the cylinder at something like 250 miles an hour. Leaping to meet it is the piston, with a unique device called a Yulbarator built into its face. Then occurs something more than high compression—literally cyclompression—and gasoline vapor is compacted about the spark plug. The spark sets off a fist-size hurricane—performance that ever gave up in a commercial engine before! This livelier, smarter power might seem enough for engineers to lavish on a car in a single year. But matching DYNAFLASH power in importance is Buick TORQUE-FREE SPRINGING and its arrotite ride. Take a Buick over a railroad crossing—there's no thud and chatter, no tail-swing or roll; you cover rough going with the silk-smoothness of a panther on the prowl. All because old-type leaf springs are gone! In their place, each wheel has a soft, shock-smothering cushion of stout coiled steel. Skid risks are blessedly reduced. Rear tires last longer. The whole car handles more easily! That's TORQUE-FREE SPRINGING at work! If it's power you're after, you'll want Buick's DYNAFLASH engine. If it's comfort, you'll choose the TORQUE-FREE SPRINGING ride. With either you get the other—plus half a score of features your Buick dealer is waiting to describe. See him now—for the engineering "must" story of the year!

NOW ON DISPLAY at BUICK showrooms everywhere. "Enter Buy Buick!" YOUR MONEY GOES FARTHER IN A GENERAL MOTORS CAR. Buick carries the banner forward. 464 S. WOODWARD AVE.
