Fashion Tips

One must have curves this season. In the new showings, dresses have rounded bosoms and slender but rounded hips. Black color is used, and pink combined with black seems to be a favorite.

Black is always a favorite for evening. Dresses of jersey, tulle and velvet in black are striking in the new designs.

Coats are of four styles—the princess, worn without a belt; the fur-lined straight-line model; the kimono cut with high neck and the type trimmed with fur bands around the hem, neck and up the front.

Zippers are used on some of the tight-fitting models and do away with wrinkles and bulges.

The straight-line coat is the newest model, but the princess seems to be more universally becoming.
