## Too Much Meat and Not Enough Green Food Fault of Many Diets

We are all too much inclined to over generosity of animal foods and not enough of the green ones; the vitamins that we must have are abundant in greens. To the person not requiring energy food they are a boon, and to the one needing energy value they should be served with a sauce or dressing high in calories.

**How to Cook Greens**  
Wash and cut the greens having all the leaves free. Put in a bowl of cold water. Put two seas of water on the stove and bring to a boil, into one kettle put 1 teaspoon of baking soda and into this put the greens. Let boil for 2 minutes—no longer. Then drain the water off and refill with boiling water. Add 1 teaspoon of salt to the quart of water and allow greens to cook until tender. Drain and season. Add butter, bacon fat, cream or white sauce, salt and pepper as desired.

**Collards**  
Collards are a southern vegetable and are not good until the frost falls on them.  
Wash the collards thoroughly. Boil with seasoning until they are hock about 2 hours. Boil slowly and keep under water.

**Corned Beef Hash in Cabbage**  
One can of corned beef hash, 1 head of cabbage.  
Remove the outer large leaves from the cabbage and stand in hot water for several minutes, till the leaves are pliable. Place in the center of each leaf 2 tablespoons of corned beef hash. Roll and hold the rolls together with toothpicks. Fry in shortening and serve with chili sauce.

**Broccoli On Toast**  
1 bunch broccoli  
6 slices toast  
1 teaspoon finely chopped onion  
2 hard boiled eggs, minced  
2 cups medium white sauce  
Wash the broccoli and scrape the stem lightly if they are not young or tender. Cook in salted water till tender. Cut into individual portions and arrange on toast. Meanwhile add the chopped onion and minced eggs to the white sauce and pour over the broccoli.

**Braised Lettuce**  
Cut washed heads of Boston lettuce in quarters, cook in salted water till tender. Lift out shape and brown in shortening in which has been sauteed a few slices of carrot, one onion and one crumbled bouillon cube.

**Brussels Sprouts**  
Select light green, compact heads. Remove wilted leaves and wash in cold water 15 minutes. Drain and cook uncovered for 20 minutes. Add salt. Drain and serve with melted butter.

**Baked Onions and Spinach**  
Peel and wash in salted water for 10 or 15 minutes, onions of medium size. Drain and scoop out centers, fill with white sauce and beans. In the meantime, wash and cook spinach. Cover the bottom of a shallow baking dish with chopped shallots, place onions on this, dot with bits of butter and bake in an oven 350 degrees about 30 to 40 minutes. Serve from baking dish.

## Legion Convention Highlights Cited By Delegate

The best way to combine business and pleasure is to attend conventions—especially American Legion Conventions—in the opinion of Mrs. Gordon L. Bailey, who recently returned from New York, where she journeyed for that particular purpose.

There was plenty of business and plenty of fun, according to Mrs. Bailey. Under the head of the former, comes the general keynote of National Defense. Among the business transacted, was the establishing of rehabilitation conferences in five zones, which will meet annually.

Mrs. Bailey, who will begin her fifth year as Director of Youth Activities, succeeded in securing the necessary authority for the publication of a handbook on Americanism. The book will contain history, procedure and flag etiquette, and will be used for the education of young Americans.

Mrs. Bailey was appointed to continue as national editor of "The Hatbox," publication of the Honor Society of the American Legion Auxiliary.

"But it wasn't all work," Mrs. Bailey explained, "there was a real carnival spirit. Delegates visited various points of interest. Some went to the Navy Yards, some to seaside resorts, others to Columbia University, and of course the night clubs and theaters were not neglected. Personally, I was interested in the Rockefeller Foundation.
