(Continued from Page One) he near the commercial center of town, but not on either Maple or Woodward avenues. It is here that the hundreds of cars that stoppied by it every day would be endangered by traffic, especially with angle parking, which is what would have to be used, as well as a nuisance to that traffic.

Mrs. Neuman Lyle, 1347 York-shire road. "Well, for one thing, it ought to be centrally located. Since it would never be built in the middle of the street at the four corners, I suppose the best most convenient location would be one on either Woodward or West Maple. It would certainly be a blessing not to be irked by having to go 'way down Woodward, the way we have to do now."

Fashion Tips

Tweed being shown in London are very gay, large plain designs holding the center of the stage. Some of the plaids are three and four inches square and are used in combination with plain colors. Fastenings on frocks and coats carry out novel ideas. Some look like luggage clasps and others are fastenings of suede.

Some of the coats have sleeves three-quarter length and are worn with gauslet gloves. A lovely evening coat of red suede is full length and fitted, with slightly puffed shoulders.

A new silhouette being shown for evening is the "hobbed" one, reminiscent of the early nineties. Material is swathed tightly around the hips and falls loosely in front from the knee.

For a little at 25 cents you may invest in a "CLIPPER" AD in the "Eccentric." Try one when you want to see how it works. It is a new kind of advertising. It is a new kind of advertising. It is a new kind of advertising.

THIS AND THAT

(Continued from Page One) suggested is an income tax. How disinterested citizens are when threatened with more taxes! If your average man or woman were held up and robbed of every dollar, his cries for help would be heard for several city blocks; he would be mighty indignant—yet no one would care to help him. In broad daylight in America! Let this same citizen will sit by and witness elected officials spend every dime they can get, and cry for more. What crimes against people are committed in the name of a liberal government!

It is about time, with wars constantly going in the Far East, to change the name to the "Fear East."

Here's an anonymous tidbit going the rounds that may remind you of some of your own experiences. A man had just installed a radio in his home. He was sitting on the same wave length. One was a minister, one a man telling the

condition of the roads, and the third was a lecturer on poultry. Here is what he got: "The Old Testament tells us that baby chicks should detour one mile south of Salina and listen to the words of the prophet Sessy. Be careful in the selection of your eggs and you will find that they will lead you into Garden City. We find in Genesis that the roads are muddy just west of the hemboush and clean star is essential if you would save your soul. After passing through Leavenworth, turn north to Jericho. Three wise men sought a large size incubator on account of a bold detour. The baby chicks are troubled with pin and head issues are being talked in the Holy City. Keep the feet clean and dry, live a life of righteousness and turn south one mile west of the school house. Much care should be used in commanding the sun to stand still, as there was a washout on the bridge just south of Paola and the road to salvation is under repair, making it necessary for 75 degrees in the brooding house at all times. After you leave Winfield, unless you do these things, the wrath of the Lord will cause the pin feathers to fall out and detour one mile south. Many

are called, but few have any book with the gravel road between Lawrence and Topeka is mixed with the feed. Out of 500 eggs one should get good results from Coffeyville to Tulsa and be commended to build the Ark just one mile west of Wichita. It rained 40 nights and caused an eight mile detour. Just west of the brooding house many tourists from the House of David are trying the Plymouth Rocks mixed with concrete and a desire to do right.

ST. LOUIS, Mo.—I wasn't Lawrence Jenawen's lucky day when he found a \$20 bill. Moved by his good fortune, he bought drinks for everybody in the tavern where he picked the bill of the floor. The owner of the bill, walked in and claimed it. \$20, plus another \$20 provided under Missouri law in the case of non-retained property, plus court costs. Total \$100.
