COLLEGE IN COUNTY TO SEEK \$100,000 FOR BUILDING FUND

Great Lakes College, first institution of higher learning in Oakland County will shortly launch a campaign for funds to begin its \$300,000 building and equipment program.

With a new 120-acre site, located at Nine Mile road and Wyoming avenue, it is planned to commence building operations as soon as sufficient funds have been secured.

An initial sum of \$100,000 of the final building and equipment fund of \$300,000 is sought. This fund will enable the college to clear its present site and to erect the first of its several buildings.

Established in temporary quarters a year ago to provide much needed educational facilities in the Southern Oakland County area, Great Lakes College is now going ahead with its plans for the completion of its building program.
