BACK FENCING

A MAN ABOUT TOWN

sure sign of Spring Tuesday afternoon, and it looked pretty action to us. A young lady came sauntering down the street with a golf bag full of golf clubs tucied under her arm and a pair of heavy oxfords dangling from her hand. We thought, as we saw her, that she should have a pair of boots if she really was going out for a round of golf.

oxfords danging iron and she should have a pair of boots if she really was going our around of golf.

A Word reaches us that Chrence Libke, formerly local manager for the Michigan Bell, has been moved from Bay City to Saginaw. That's good news, as we would guess that the transfer is in the nature of a boost for Carence. "Lib" was one of Biranipham's most popular bachelos's while here and left a boot of friends when he was sent up to Bay City. As far as we know, he is STILL a bachelor and STILL pretty much settled on his way of living. He and Lawyer Blenman are two of a kind ... very hice to the fair ladies, but not particularly interested in them.

Another very handled a stopped off in town the other day in the person.

eligible bachelor stopped off in town the other day in the person of Clarence Warner, formerly the Advertising man at the Secentric. At present he is associated with The Angle-Saxon Federation of America, and his contact with this organization has been very interesting. W. J. Cameron, of the Ford Motod Company is one of the head men with the Anglo-Saxons, and his influence on Mr. Watner is very apparent. Clarence is evidently doing quite well, as he is driving a Lincoln Zephyr and looks like the fellows one sees in Esquire. It was nice to have seen him and hear his new ideas on life.

from local merchants who have recently returned from buying trips in Chicago and New York indicate that, despite the fact that most all business is disturbed at the present time, a better day is expected in the not too distant future. Wholesale houses are very busy and orders are piling in so fast that some of the supply houses are unable to fill their orders. Maybe Spring will bring out the kinks in business and be the signal for more buying . more selling . . more work for the men in the factories. Wouldn't that be grand?

Wouldn't that be grand?

As we lingered for a moment over at Phil Williams' Boot Shop the other day, Dave Anderson, who was standing nearby, pointed his finger to the floor and said, "Many a time have I mopped that floor." Not knowing Dave for a great length of time we were a hit puzzled by the remark so said. "How come, Dave, I didn't know that you were a shoe man before entering into the accounting business." Dave smiled, shook his head and replied, "No. I never was in the shoe business, but this is the former home of the old First National Bank, and I came back from my honeymoon and started in as a bank clerk right here. In those days the floors were cleaned by the junior clerk, and believe me, I made this floor shine." And then Junior clerk, and believe me, I made this floor shine." And then junior clerk, and believe me, I made this floor shine." And then junior slept, and I remember the when you came in this same building and bought some of the first Liberty Bonds, and the deal was mainty and the proposed the clerk of the first Liberty Bonds, and the deal was mainty that the proposed the desk of Mr. Whitchead, then president of the Pirst National Bank of Birmingham. How times have changed!

**Me have been

heave changed!

We have been hearing considerable talk about the matter of opening and keeping open the fine awimming pool which is now deteriorating from lack of use, over at the Barnum School. Figures at hand seem to indicate that the cost of operating the pool on a year-round basis would not be as accessive as shown during the summer week's trial proved to be. In fact, some of those interested in the program would be spread over a believe that if the pool was used throughout the year, the expenses incidental to re-opening the pool would be spread over a believe that if the pool was used throughout the year, the expenses incidental to re-opening the pool would be spread over a penses incidental to re-opening the pool would be spread over a penses incidental to re-opening the pool would be carried out by those regularly managed in the second of supervision and maintenance would be used about a summer of summer of the program could be carried out by those regularly managed in the second of the s

As the foundation work for the Annual/Community House Roll Call is being carried out, word reaches us that the Brimingham Business Women's Club has already "gone to bat" and has sent in their centribution of \$50, which is exceptly doubt the amount they gave last year. They have set a mighty fast pace, and a good ujark, for other organizations to shoot af. We would say that the Community House and all its service departments is one of Brimingham's greatest and individual in these parts. Check over the activities of the "House" and you'll be SOLD on the idea of giving every dollar you jossibly can toward its maintenance. Anticipate the Roll Call, and be ready to DO YOUR PART.

one of the town's most popular Doctors told us today that THIS is one of the worst times of the year for colds. His "free" consultation gave us the information that "keeping the feet dry" is one of the best preventatives for avoiding Spring Colds - . So—we'll say—"Don't forget your rubbers!"
