Fashion Tips

The newest thing in luggage is stainless steel. It comes in four teen sizes and is just the thing for an ocean voyage, or where one's luggage gets harsh treatment. It is covered in tweed pattern canvas or can be had in rawhide. While the latter is more expensive, it has longer wearing qualities.

A new glove is one of lace and it comes from China. It is fingerless and has points of lace going up to the first knuckle. Crocheted gloves are smart also, and have the added advantage of being cool.

Silver and gold sandals can be worn with any dress for evening. The newest ones have open heels and are of gold kid, while crocheted, draped straps of crepe form the vamp.
