Politics and Music Music is a harmony and our nation is in a state of dissonance. Music is an exact and honest science. Few musicians are found in prisons. The rhythm and cadence of music may be perfect and in complete accord with cooperation must be included in it. All of the recitatives are in prison.

These young people who sang and played, exhibiting such perfect unity in structure and action, do they represent the condition of their native land? They do not. That is why they were so enjoyable. After seven years of turmoil, bitterness, and listening to the wails of the parent concerning destroyed and hampered institutions and employment their music was not possessed by this writer.

Then would the people of the United States know that Happy Days are Here Again.
