

BRIDE-ELECT IS FETED AT ROUND OF GAY AFFAIRS

The bride-elect, who is the daughter of Mr. and Mrs. Richard Bragaw of Lone Pine Court, will marry Mr. Kern, son of Mr. and Mrs. Otto Kern of Squirrel road, on Saturday, June 11, and will be the honor guest at a large number of parties preceding the wedding date.

Mrs. Kern began the parties on Tuesday, with a tea and kitchen shower for Miss Bragaw and 20 of her friends from Bloomfield Hills and Detroit. Green and yellow, the colors chosen by Miss Bragaw for her kitchen, were used in the decorations as well as the gifts. Mrs. Robert Garrison of Indian Village will be the second hostess. Johnson, Mrs. Paul Maurer, Mrs. Lester Bely, Mrs. Harry Boulton, Mrs. C. G. Grier, Mrs. Josephine McDonald and Mrs. Daniel Wertz.

The ceremony was performed by the Rev. W. Glen Harris at the First Presbyterian church, at four o'clock in the afternoon. WOMAN'S CLUB HOLDS MAY FETE AS LAST MEETING

The annual May Breakfast of the Birmingham Woman's Club, held Tuesday at the Birmingham Golf Club, was attended by 75 of the members. The affair, which closes the club's program for the season, included a program and breakfast meeting as well as the regular meeting.

Among the honor guests were Mrs. J. H. Marlette of Royal Oak, a past president of the Woman's Club and a life member. The table decorations were carried out in pink and green, the club's colors. The SNAPSHOT GUILD

PROPER EXPOSURE

Brilliantly lighted beach subjects, with no harsh shadows, take less exposure. For this, 1/25 at f.16 (or the large lens opening on a box camera). If subject faces sun, or for a "fingering" beach view, use f.22 or the small lens opening.

MANY writers make a great-to-do about exposure, so that it seems complicated. As a matter of fact, for most ordinary subjects out doors, it is simple.

Light in very early morning or late afternoon is quite weak, but from an hour or so after sunrise to about an hour before sunset, it is fairly constant in its intensity. During the middle daylight hours, camera loaded with chrome type or "pan" type film, set your lens and shutter as follows:

BRILLIANT DAY
Average subject, 1/25 second and f.11 lens opening.
Open landscape, 1/25, f.16.
Water or beach scenes, 1/25, f.22.

CLOUDY BRIGHT DAY
Average subject, 1/25, f.8.
Open landscape, 1/25, f.11.
Water or beach scenes, 1/25, f.16.

DULL DAY
Average subject, 1/25, f.6.3.

Open landscape, 1/25, f.8.
Water or beach scenes, 1/25, f.8.

When you must use a high shutter speed, use a larger lens opening. Remember that 1/25 second at f.11 is the same as 1/50 at f.8, and a very short time exposure (one-half to one second, or about as fast as you can work the shutter when on "Time") using the small lens opening.

With any camera, when you are taking pictures shortly after sunrise or before sunset, you must use a larger lens opening, or a slower shutter speed. At such times, light tends to be yellow and the "pan" type film will be best as it is distinctly faster in such light.

Fashion Tips

Capes are quite the thing in Paris this season. They come in a variety of lengths and materials.

For morning the hip length cape seems to be the favorite and it may be of tweed or woolen.

For afternoon the cape may be as long as one's frock or a little shorter and if it is of a vivid shade it is likely to be worn with a dark or white frock.

For evening one may wear the little waist length cape of sheer material or on more formal occasions seen in a sweeping cape of tulle, satin velvet or the ruffled affairs of tulle, organza or chiffon.
