What Your City Commission Is Doing

September 6, 1938
Bills were approved in an amount of \$32,120.46, including a payroll of \$6,494.37 for the two week period ending August 31, and deposits of \$13,139.19 and \$6,086.90 in the P. W. A. Construction Account.

A petition was received from a committee including Dick Johnston and Bill Salabury, requesting permission to use the Civic Center for a recorded concert to be held Sunday afternoon, September 11th. Suggestions were made relative to the use of the street, other than the park itself, and other possible sites were discussed. The manager was authorized to cooperate in the use of city streets, or other municipal park where there might be less danger of damage to the lawn or shrubbery.

Resolutions were adopted approving revised estimates on the sewage treatment plant, sub contracts to be employed on the same, and designating the Birmingham National Bank as depository for Sewerage Disposal Revenue Funds, and funds in the P. W. A. Construction Account.

Election inspectors were appointed for the election to be held September 13th.

BITS OF B'HAM

Didja ever have a bite, big, 30-inch Rainbow trout that take you in the face? Well, according to most reliable "grapevine" telegraph, the piscatorial editor of The Eccentric has just learned that J. Darby Taylor, of 316 Buritan road, had some experience recently while fishing on the Manistee River, west of Vanderbit. It seems that Darby was not fishing in his usual parist style—which is using a dry fly to deceive the fish. No, Sir! This time the respectable Mr. Taylor, not to be confused with "Jack" B. Taylor, of Madison avenue, who never, never uses anything but artificial flies, resorted to garden huckle, or plain worms. He was fishing with about a half-pint of the most luscious of night crawlers when something straightened out his line; after 15 minutes of the most grueling work, floundering around the river waist-deep, Darby's prey "got away"; in so doing, however, the fisherman's hook straightened out and hook and leader and line flew back toward his face. Our informant states that a small section of buckshot, used as a sinker, hit Darby right over his left eye. So, Folks, if you notice a determined glint in one or both of Darby's eyes this winter, you'll recognize it merely as proof of the fact that when the season opens next spring he's a gon' 'up in them that hills of northern Michigan, where that's Rainbow trout—big ones, tho—in them that streams!

Local friends of Charles Wilson, Pontiac attorney who's campaigning for Oakland County prosecutor on the Republican ticket, are busily engaged in his behalf. They hold that Mr. Wilson, young enough to be a crusader for law enforcement, is capable of doing a good job in the office. Some years ago he served as an associate prosecutor, and his experience is believed to have suited him ably to discharge the duties of his office.

For as little as 25 cents you may inspect a CLASSIFIED Ad in the columns of The Eccentric. Try one when you want to buy or sell, locate a house or real estate for hire or rent. Telephone 11 before Wednesday noon each week. —A-15

Fashion Tips

Plum brown promises to be the most popular brown of the season for accessories with rust a close runner-up. Accessories are outshining us in color and leather but business of designs and double-hauls has been discarded.

Platform soles are growing in popularity. For one reason the extra height gives a greater slant to the ankle and the slicker soles are good for walking.

Plum brown is sometimes trimmed in black and goes very nicely with black clothes as well as with gray. Brown or green. Black accessories are better for the purples.

A sport shoe that college girls will adore is made of soft baby alligator and has a mud guard around the sole which gives the appearance of a platform sole.

BARE lamp bulbs are harmful to eyesight—

Here's how to cover them up!

"RAW" light is never good for your eyes. You know what happens if you try to read a book out-of-doors on a bright summer day, with dazzling sunlight on the page. You are forced to squint because of the glare, and before long the type is dancing before your eyes. If you continue, serious eyestrain may result. But if you move out of the bright sun, under the shade of a tree, you have perfect light: You can enjoy your reading in comfort.

The same thing is true of artificial light indoors. A bare lamp bulb is irritating. It is a glaring light source that causes you to squint if you look directly at it. And even if you do not look at it, it is still a possible source of eye-train. You may find yourself frowning slightly as you read a book or newspaper, and rubbing your eyes as they rapidly become tired.

All lamp bulbs should be shaded. No matter where bare bulbs appear—on decorative wall brackets, in ceiling fixtures, on stairways or in your bathroom—there are suitable shades and fixtures designed to cover them. These shades and "light adaptors" are surprisingly inexpensive. Our Home Lighting Advisors will be glad to tell you about them, and to check the lighting in your home without charge. Call your Detroit Edison office.

The Detroit Edison Company does not sell light adaptors or floor or table lamps. See them on display at department stores, lighting fixture stores or electrical dealers.
