## Baldwin Students See President on Eastern Sojourn

Seeing the President of the United States was one of the many uncheduled features seen by the Washington group of Baldwin high school on its recent trip to Washington and New York. The train had just arrived at Washington D. C. when the trip manager announced to the group that the President's special train would arrive in about five minutes. The group hurried off the train and on the bus which had been assigned to it. The driver drove the bus within 50 feet of the place where the train would stop.

In a few minutes two motorcycle policemen came roaring in to the station, sirens screaming. A moment later six or eight more came racing up. After the policemen arrived, the President's big white convertible sedan drove up. Following the President's car, a sedan with plainclothes men drove in. The President's special train arrived and the President stepped off. He stepped into his car and drove off.

It was an exciting moment for the group and no the students would forget for a long time.

## Baldwin Students Name Chairman of Annual 'Basket Ball' in Honor of Team

Ted Snyder, son of Mr. and Mrs. Edwin S. Snyder, 768 Oakland avenue, was recently appointed general chairman of the Basket Ball, annual school dance in honor of the basketball team. The ball is sponsored by the Student Congress and is to be given April 29 at Baldwin high school.

The motif of the dance is the traditional May Day, including among the decorations a huge Maypole in the center of the auditorium.

Assisting Ted in the project are the following: Cameron Biggers and Clifford Harvey, publicity; Bill Kreipe and Margaret Gardner, band; Ward Trucknack and Bob Myers, decorations; John Bathgate and George Mullin, tickets; Faye Anderson and Dick Harrell, favors; Mrs. Carol Darling is the adviser in charge.

The sophomore class is in charge of concessions and expects to serve soft drinks, candy, etc. at tables arranged on the track above the auditorium.

A big surprise is in store for those attending the dance. Snyder pointed out, "As a well known personage in Birmingham school life is to be honored. However, that is all the information I can offer at the present time."

Ted is a member of the senior class, is a letter man in football and baseball, besides being the sports editor of The Piper and a prominent member of the Student Congress.

## Washington Group Pays Tribute to W. S. Toothacker

W. S. Toothacker of the Science Department of Baldwin high school was presented with a leather brief case Monday by members of the 1939 Washington Group. The case is equipped with zipper and lock with the following inscription in gold: W. S. Toothacker, Washington Group, 1939.

A note enclosed read: "To Mr. Toothacker for his helpfulness and consideration in founding our group and arranging our trip. The group consisted of Herbert Moore, Bertie Elliott, Bill Rosso, Lorraine Stanley, Harry Sevin, Carolyn Wright, Minnie Wade, Ann Marie Thresher, Estelina Mosher, Bill Robinson, Miss Marjory Unger, Miss Josephine Bristol, Eleanor Miller, Mrs. Clyde Haver, Mrs. Robert Rudzinski, S. C. Westcott, Warren Hershey, Lenh Hunt, Betty Jensen, William Stamation, Mrs. Ann Elliott, Martha Mellinger, Loren Robinson, Milton Coulson, Catherine Hartman, Ruth Haver, Marguerite Shimmie, Elaine Sawyer, Miss Ruth Hall, E. A. Hubbard, Betty Childs, Margaret Sander."

Mr. Toothacker found it impossible to accompany the group this year.

## Hills Track Squad Reports for Early Spring Training

Thirty-one candidates for the Bloomfield Hills school track team reported Monday to Richard Spiess, director of boys' physical education. According to Mr. Spiess, 15 of the boys are veterans from last year's state championship team. The veterans reporting are Richard Shepherd, Gordon Craig, Hugh Gooligly, Phillip Maxwell, Ronald Hall, David Mott, Junior Moore, Fred Bracker, William Bricker, Richard Page, Robert Tyson, Francis Carrette, Jack Winfield, John Palmis, and Leon Sawyer.

Other boys out for the team are Jerry Green, Robert Hartman, Jerry Palmis, Jimmy Fox, Wallace Peters, Peter Jenks, Robert Nye, John Eustis, Harold Pflieger, Peter Higbie, Robert Lowe, Bill Cochran, Phillip Braun, Nathan Dornage, Vernon Converse and Robert Scott.

After making a physical check of his squad, Coach Spiess reports that he probably will have greater strength in the field events than he has had on previous years. The high jump, broad jump and shot appear to be much stronger. The return of Richard Shepherd, Gordon Craig, and Leon Sawyer add in the dashes, and the team's first meet coming on May 2, with Frankfort is forcing hurried activity in the track program.

Ted Snyder

## Washington Group Staged With Local Group as Actors

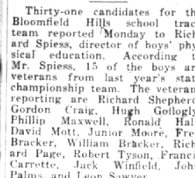

Through the courtesy of the National broadcasting company, a party of 21 persons, of which 21 were students of Baldwin high school, were allowed to witness and also take part in a television test at Rockefeller Center in New York.

Directed and supervised by Miss Ruth Hall and Eugene A. Hubbard, teachers at Baldwin high school, the Washington group was allowed to divide into two parties. One half of the group performed while the other watched the performance.

The screen on which the performance is televised is approximately 8 x 12 feet. The limit at the present to which television can be carried is 30 miles unless a relay is used. Mr. Hubbard stated that both the pictures and sound were very clear.

Television machines will be placed on the market for the first time at the World's Fair in New York this year.

## Your University

THE UNIVERSITY HOSPITAL

Medical treatment, education and research are all carried on within the University of Michigan Hospital building shown above. Patients, students and every citizen of the State benefit from the Hospital's broad program.

Physicians today must spend from 20 to 25 years in securing their education. After the regular college years, the student spends two years in the medical school laboratories and classrooms and from three to seven years in study at the Hospital. Courses for medical students, for specialists in various fields, and for graduate physicians returning for "refresher" training are continually in progress at the Hospital. Student nurses, dietitians, anesthetists, occupational therapists, social workers, and others in every department are also given training in their various fields through the facilities of the Hospital.

The special facilities of the Hospital are used by the physicians for examination or treatment and receive detailed reports of the Hospital's findings and results. Research is carried on by the staff of every department. The blood diseases, diabetes, arthritis and heart trouble, to mention a few, are being studied in an effort to ameliorate the suffering of humanity. The intensive activities in treatment, education and research tend to reinforce each other by their interrelations with the whole Hospital program.

## Annopolis, West Point in Itinerary

Annopolis, West Point in Itinerary

West Point and Annopolis were included in the itinerary of the Washington group on the trip through Washington and New York during spring vacation. Points of interest at Annopolis were the tomb of John Paul Jones; the large hall where boys are held; a typical midshipman's room; over 2400 students in gun drills and plane observations.

En route to West Point the group stopped at Washington Irving's home in Sleepy Hollow. Then it took a beautiful drive down the Hudson. When it arrived at West Point, it found the cadets playing baseball. The group covered the West Point grounds by bus with a guide explaining points of interest.
