## The SNAPSHOT GUILD

CAMERA IN THE CAR

When driving, keep your camera on the seat beside you, loaded and ready. You never know when a picture chance (such as this) will pop up.

DO YOU keep your camera in your automobile when you're driving—all loaded on the seat beside you, lens and shutter set, ready to shoot at a moment's notice?

If you are not doing the driving, your hands are free and there are many more picture opportunities for you—as well as a better snapshot position. The car halts at a street intersection, and there may be a popcorn peddler on the corner, a window washer at the office window above, people busily hurrying to and from work.
