Take the case of the chap who works by the higher than six years ago: but he isn't allowed works with whore and bugy days, can be made; but the six and the six allowed to work so many hours each week which, even with extra over-time rates, doesn't give him the full pay that he formerly enjoyed.

Since last October, 44 hours is the limit a want can work in interstate commerce activities (which includes a majority of workers); after 44 hours work the employer must pay not less than time and a half for all hours over 44th hours work the employer must pay not less than time and a half for all hours over 44th hours work the employer must pay not less than time and a half for all hours over 44th hours work the employer must pay not less than time and a half for all hours over 44th hours work the employer must pay not less than time and a half for all hours over 44th hours when the sease against industry.

What happens? Why, quite naturally in todays competitive system, the employer tries to advance and the program of the surface of the problem showed how located sit down strikes in Michigan.
