

Let's Build For Better Schools!

**YOUR CHILDREN ARE ENTITLED TO THE BEST PUBLIC SCHOOLS
IN THE STATE OF MICHIGAN, REGARDLESS OF THE
CLASSIFICATION OF THE DISTRICT.**

The personnel of the School Board largely determines what kind of schools we have. That is why you wait on that Board the best men that can be persuaded to serve.

Wouldn't you, for this job, like to have men who are eminently successful in their own professions—who are already recognized as outstanding citizens in the community? Men who have a

breadth of view that is above bickering? Men who look beyond details to basic fundamentals? Men whose sound judgment and interest in mankind has already been shown? Men with only one ambition in this issue—to use their combined talents to help Birmingham have even better schools than now?

We recommend to you therefore, just this type of men.

YOU CAN VOTE FOR BETTER SCHOOLS AT THE SCHOOL ELECTION MONDAY

VOTE "YES" FOR A SEVEN MAN SCHOOL BOARD

**VOTE FOR THESE THREE
OUTSTANDING MEN**

Each is a competent administrator. Together they will put a stop to the inefficiencies in our school system, and bring to our children the educational facilities to which they are entitled.

- ☒ **ERNEST W. SEAHOLM**
- ☒ **WYLIE E. GROVES**
- ☒ **WILLIAM COIT ALLEE**

Such A Vote Will Not Increase Our Taxes!

**TAXES CAN NOT BE INCREASED BY CHANGING THE
CLASSIFICATION OF OUR SCHOOL DISTRICT**

The indebtedness of our school district cannot be increased by changing its classification. The consent of a majority of electors must be obtained before additional bonds can be issued.

Portions of our present school district cannot withdraw merely because we choose to change the classification of the district. This is the opinion of the legal Division of the State Department

of Public Instruction.

Money granted to our school district by the state * (State aid and primary Interest Fund) will not be curtailed because we vote to make Birmingham a third class school district. State money has been allocated to school districts on a basis of need and population. Neither of these factors can be affected by re-classification.
