

College Knowledge

By SOPHIE MORE

Nossir, Sophie doesn't know what to make of it. Here she decides that everyone and everything is under control and all of a sudden activity begins with a wild outburst which leaves us all gasping for breath. Keep it up though children, it makes good reading for the rest of us.

Influential Citizen.
Right smack out of the box comes a LOT of important information about your talented friend Logan Jones—you know THAT man—he just got elected to Phi Beta Kappa! Best of all, he's going to HERI, on March 29, as one of the nine second tenors in the Amherst Glee Club, which will give a concert in the Community House on that date.

(Incidentally, Beeham is really going to gang up and have fun at the event.) But here are some added important details about Logan which you may not know. He's affiliated with Delta Upsilon and is an active member of the Pre-Med Club. Besides all this, he's on the cheer-leading squad. Quite an active guy, hey?

Big-Time Date.
News of what was definitely an OCCASION, comes hurling in from Rockford College, where they really do things on a big scale. The college is the choice of Mary Pattison and no wonder! Because they invited no less than 30 men from Kenyon up for the week-end recently, just for the fun of it. And the grandest thing about it was that George DeGraff was one of the visitors and of course they got together and had HEAPS of fun. The lads arrived in time for a dinner and dance on Friday evening, and stayed on for a skating party on the Rock River which flows right through the campus. A tea dance. . . . And no end of added diversion to improve on the stimulate of the party. And Mary and George made ALL the Chicago papers on account of bumping into each other like that. Fun!

Thrilling Rites.
That once-in-a-lifetime thrill which formal initiations always provide was vouchsafed to Horstene Smith recently, when she became an active member of Alpha Phi at the University of Michigan. Horstene, it is rumored will be moving into the house before long. She can do it on account of being a sophomore, having transferred from Connecticut College. **Dark-eyed Mildred DeLee** also chose that week-end to become initiated and she is now a full

pledged Chi Omega. Not doing badly, hey? The Kappa Kappa Gamma really did all right by snatching off TWO of Beeham's foremost glamor gals, Betty Sage and her fellow-lovely from Stevens, Barbara Brehm, are the two ladies who now wear the famous key. After the initiations were over, banquets were held at the various chapter houses to honor all the new members. Various officials of all the societies were also on hand, to lend that special glamour to the occasions.

Career Candidates.
Seems that a flock of our worthies have gone and gotten themselves graduated from U. of M., it being midyears and they being smart people. They'll be honored in June of course, at the regular ceremonies, but if you should want to know, the prized degrees are already there. Jim Walker, who finished there a little while ago is now a Bachelor of Science. His degree is in engineering. In case you'd like him to build a few bridges for you, Ginny Richardson hauled herself down in a Bachelor of Arts diploma from the lit. school, which is doubly good news, because now perhaps you'll be seeing her around for a while. Everyone hopes so, anyway. And Betty Quarton was given her certificate in Pennsylvania. So you seen what been keeping HER busy. And now the next step up for those news-worthy candidates is news of their careers, which are scheduled to begin almost at once.

Young Senator.
In case you'd like to be in college and travel too, just follow the example of Dean Beier, pidd of the Phi Delt at Denison. He hopped down to Washington over the week-end, where he was one of the members of a Model Senate, sponsored by George Washington University, at the capitol city. And quite an honor it was, as well as being all kinds of fun, as you can imagine.

Death Begins at 50.
Life begins at 40, but the State of Pennsylvania believes that death begins at 50. So a law was passed and enforced making fifty miles an hour the speed limit. The State puts on a 42 per cent decrease in auto fatalities since the first of the year as proof that its policy is right.—Rochester Times-Union.

A Hat That Hides

Frankly, fellows, this picture is designed to make you look at the hat instead of the model. Since top-pieces like these are tops for spring, you might as well get used to the idea. The wide brim hides mildred's face—except from the front. Of white woven straw, the hat features a pyramid crown, cupped at the peak. It is banded with rope strands of multi-colored felt, which tie at the back and dangle from the knot.

Sour Cream, A Problem To All Cooks, May Be Turned Into A Prized Asset
