View of corner of back of Wells' house at 683 Mohagan through grille in garden wall. Mrs. Wells spent six years tussling with bulbs, perennials and the rock garden.

WERE talking about that friend of yours who owns a 1939 Buick— You've heard plenty from him, naturally, about the fresh-as-the-morning-breeze styling of his taut and trim new Buick—and the way it perks abody up just to look it over! You've listened while he sang the praise of a ride that's like a lullaby—soft and gentle as a tender touch, but sure, unwavering, steady, in crosswind or at speed. No doubt you've sensed his joy at those eight eager Dynaflex cylinders, that need only the gentlest sort of hint to hike you straight to the forefront—and the snug and reassuring steadiness of this low-slung, stable steppergent's gait! All of which is well and good, and not to be disputed. But has your good friend told you this: ... That Buick's prices are easily the lowest prices for the value you'll find anywhere on automobile row? ... That this far-ranging great-hearted eight—with all the sky-larking life give extra cylinders, those extra cylinders, those extra cylinders—still costs less than some sixes? ... That factory list figures run anywhere from \$51 to \$102 less than a year ago—and that they buy worlds more in self-banking Kneec-Action, Handshift transmission, 15% softer BuicOil Springing, visibility stepped up as much as 412 square inches, any number of so-called "extras" such as the Flash-Way direction signal? If he hasn't told you this, it's plainly time to do this: Get dollars-and-cents figures on what the model of your choice will cost delivered in your driveway! That will prove, we think, that Buick's the car and the value of the year. And we're certain—sure it will tell you what your best friend may have forgotten—so why should you be without it?

Better buy Buick!
