

No Longer Desired  
"I don't like that man. Every time I see him he tells me I'm looking younger."  
"I should think you'd be pleased to receive such a compliment."  
"Not at all. No man ever says that to a woman unless he thinks she is getting old."

Cottons are definitely in the picture this season. For several years they have been gaining in popularity but they have emphatically attained a high place for this summer.

## College Knowledge

By SOPHIE MORE

Oh dear—it won't be very long before you're all through with school for another year, and Sophie gets lonely at the very thought. However, nobody can say that you aren't cramming these last few weeks to the B.R.M. with activities, honors and appointments. The whirl will keep on for some time, it's rumored, so hold tight.

### He's In Again

Doesn't it seem like just a SHORT time ago that everyone was excited over the achievements of Henry Foley at the University of Michigan? Well, there's still MORE. He's one of the luckiest recently elected to membership in Sigma Xi, national scientific honorary fraternity! And THAT is good stuff.

### Architect's Ball

Social life at the University is perking right along, with the Architects' Ball date set for May 19, and everyone is simply in a LATHER about it of course. Among the chief latherers are Florence Brotherton, whose name is practically a by-word up there, thanks to all her accomplishments, and that cute blonde ex-Stephanie, Betty Sage, THEN, if you please, are on the patron's committee for the affair. By tradition, you remember, guests will attend the ball in costume, which in itself makes for palatial glamor, yes?

### Soldier Boy

Men—men—something about a SOLDIER, don't you say? Sophie is SURE you'd think so if you've attended any one of the various marvelous Military Balls at the colleges 'round, and seen the Seaboard and Blade men in their impressive uniforms. So now Art Brandt is among the elect. The U. of M. chapter of the national military honor society has initiated him into membership, and aren't we all proud of him!

### The Press—No Less

If things keep up, you'll be hearing that the Beecham kids have their own news correspondent at the University. There'll be so many of them who are big shots in the student publications. Bill Elmer is the latest jumpy-singer on the ladder of fame. The Michigan Daily will be boasting next year on any account of he's been appointed to the editorial staff. Nice?

### Fast Movers

Well, there's one thing characteristic of the cords at DePaul. They certainly don't let grass grow under THEIR feet, as one of DePaul's charming representatives there can tell you. Patty Allen is the lady in question, and she can tell you at least one of her

activities for next year. Her sisters in Alpha Gamma Delta have elected her to represent them on the Pan-Hellenic Council, governing body for women's fraternities on campus. And that ain't hay either!

### Music in the Air

Just about a week ago, music students in the women's college of the University of North Carolina were making the air around Greensboro simply BING with another of those recitals. As usual, Helen Forester was right up there, one of the four vocal soloists. Her selection was "Ebas Traum," from Wagner's "Lohengrin," and of course she did her customary lovely job on same.

### Socialites

Those kids at U. of M. have really swamped the headlines this week. The powers-that-be are getting all the appointments and other important unfinished business out of the way, in order to end the year with a clean slate.

### Your RUGS need cleaning too!

When we teach our children that "Cleanliness is next to Godliness," why don't more of us practice what we preach and have our RUGS cleaned more often? Rugs accumulate more dirt than any other article in the home, and they must be cleaned frequently for the sake of our homes' beauty and our families' health! Star's prices are attractively low and Star's workmanship is Michigan's finest—send your rugs to Star—today!
