

Didn't Stop in Time; Three Cars in Crash

A three-car crash occurred at an early hour Monday morning when Marguerite C. Wright, 49 years old, of Grasse Pointe, failed to stop in time for the traffic light at Brown street on Woodward avenue.

Lions Club Hears Mrs. Julia Lally

"In Birmingham we often hear it said that there is practically no welfare problem," Mrs. Julia Lally, hostess of the Community House, told members of the Lions Club who assembled Wednesday for their weekly luncheon meeting.

"As an actual welfare relief problem that is true," she said, "but there is a definite problem for borderline families." There are the people who try to live in Birmingham because of the suitable surroundings for their families, Mrs. Lally said, but find here excessive rents. Yet they try to keep up their homes and be respectable in spite of their limited incomes, she pointed out.

One place where help seems to be needed is the services of the visiting nurses, Mrs. Lally said. Free service of the Visiting Nurses association is extended as far north as the Fourteen Mile road but despite the large sums which Birmingham people contribute to the Community Fund, of which the Visiting Nurses association is a branch, there is no free service here.

This is a place where some funds should be raised for nursing care for families who are unable to afford it, the speaker said.

In closing, Mrs. Lally spoke briefly on the importance of the defective vision which is provided by the Lions Club. "Although we realize its value today, the future will show more convincingly the good that is being done by this work," she said.

Social Briefs

Nora Joan Bieckoff, daughter of Dr. and Mrs. Enoch Bieckoff, Forest avenue, and Ruth Bieckoff, Franklin, guests included Mrs. John Hruska, of Cleveland, Ohio, will leave Saturday to spend a few days in New York, returning home for Thanksgiving.

Mrs. Robert W. Woodruff entertained members of her musical group Thursday in her home on Franklin. Guests included Mrs. Arthur De Rosiers, Mrs. Eugene Murphy, Mrs. Oliver Horn, Mrs. Jennings Morse, Mrs. Walter Kasten and Mrs. Richard Orchard.

Alice Paintner entertained at bridge Tuesday evening at her home on Watkins street. Guests were Rhoda Medbury, Jean Wakefield, Betty Dick, Shirley and Louise Hershey, Helen Hogben, Virginia Ford and Janet Stanley.

Gardeners' Corner

(This column is conducted for the benefit of the readers by Mrs. Marc T. Patten, Box 146, Bloomfield Hills. Questions on gardening matters may be addressed to Mrs. Patten and they will be answered in the Gardeners' Corner or directly by mail.)

On Potting Plants. In order to grow plants in pots, some understanding of soils and root needs is necessary. A good mixture for pots is 2 parts soil to 1 part leafmold (peatmoss or well rotted manure) adding and if the soil is heavy clay. Sieve this mixture for small plants or seedlings. For actually potting, the soil should be moist enough to show the imprint of the hand when squeezed—neither soggy nor crumbly.

Pots if new should be soaked; if old, thoroughly scrubbed. Drainage in the form of broken bits of pot should be used in any pot larger than a 4 inch one. Be sure they are placed with the concave side at the bottom or the hole will be stopped up. Plants must be placed in the pot at the proper distance from the top. Leave enough room to hold the water in the pot. The pot should be 2" pot needs 1 1/2" about 3" and so on.

To see if a plant needs to be shifted into a larger size pot, place the hand on the soil with the stem between the middle two fingers, turn pot upside down and rap the edge sharply on the table, lift the plant out. If the soil is firm, the entire ball is covered with roots, the plant needs a larger pot. Remove the old dirt from the pot, fill the pot to be used with the top layer of soil, and carefully put the plant in the dirt around the stem between the middle two fingers, turn pot upside down and rap the edge sharply on the table, lift the plant out. If the soil is firm, the entire ball is covered with roots, the plant needs a larger pot.

Remove the old dirt from the pot, fill the pot to be used with the top layer of soil, and carefully put the plant in the dirt around the stem between the middle two fingers, turn pot upside down and rap the edge sharply on the table, lift the plant out. If the soil is firm, the entire ball is covered with roots, the plant needs a larger pot.

Photographer Speaks Before School Board

A. E. Arnold, photographer, appeared before the Board of Education Tuesday, to present figures which he said refuted a current belief that his price for the senior pictures was higher than that charged by a Detroit photographer.

"If you had the same opinion as the others to present your proposition, but the students did not accept it, there is nothing much we can do about it," President Lee E. Joslyn, Jr., told him.

Plans Development. A plan of W. Whiting Raymond to replant a large lot on Harman avenue, between Lakeside and Greenwood was approved by the City Commission Monday evening.

Several small lots will be platted and a street put in.

GOOD LIGHTING AT LOW COST... This "screw-in" adaptor is ideal for breakfast nook or dining alcove. You will be delighted with this new and practical method of improving your home lighting! Your old-style fixtures can be easily modernized to give soft, pleasant illumination, free from glare... light that meets every requirement for easy, comfortable seeing. Simply screw these "light adaptors" into the sockets of your old fixtures (as easy as screwing in a lamp bulb). Light Adaptors are available in a wide selection of styles and colors, from \$1.95 to \$4.50. See them at department stores, hardware stores, lighting fixture stores or electrical dealers. The Detroit Edison Company does not sell Light Adaptors. THE DETROIT EDISON COMPANY This style Light Adaptor—\$3.50

The Big Buick's in Lot Being Risen. YES, it's nice to have a lot of money to spend. But don't forget there's also plenty of fun to be had "on the way up" to affluence. There's the satisfaction of achieving something better than you're used to—stepping up, for instance, to this smart, swift, solid Buick after you've been driving run-of-the-mill cars. Just you feel the silk-smooth surge of its great 107-horsepower micro-poise-balanced straight-eight engine—and you know that all that went before was only preliminary to this big thrill. You flip the firm, easy gearshift—and the click of its action under your hands says here's the real thing in precision-made mechanisms, not just a stopgap to tide you over. You roll your steady, even-going, firm-riding way, and the taut, surefooted, everywhere-substantial feel of this fine carriage brings a sense of "getting somewhere" as satisfying as your first gilt-edged bond. You've got action in this honey. You've got style. You've got value, and everybody knows it. You've got life—you'll romp up hills and tame the wide-open spaces and doff your cap to no one on the way. And there's nothing light, or loose, or tippy, or labored about it anywhere. Here's the sure, steady, take-it-in-stride demeanor of a car that's competent-plus. Suppose you have to stretch a bit to buy this Buick—well, you'll find that will only make you prize this great eight all the more! So go look at the car that can mark a milestone in your life. It doesn't cost a thing to find out how little a really good car will stand you delivered. Not a six, but an EIGHT for \$895 and up. delivered as fitted. Buick's compensation and fuel economy and low cost (if you specify optional equipment and accessories) are not to be compared with any other car in its class.
