Inspiration

Compiled by Clarence W. Hamilton

We all need inspiration now and then, and I am sure that you will find something to give you inspiration in this section.

We DO NOT PERMIT FEAR TO HOLD YOU BACK

"Never be afraid of people!" That is the advice of A. P. Giannini, chairman of the Board of Directors, of the Bank of America, one of the largest financial institutions in the country.

"Do not be afraid to stand up for yourselves and speak your mind. As a corporation with a clear conscience never fear to present the truth. In those areas where in the past you have been held in awe or by others or were not governed by sound business judgment, you may have been making serious mistakes.

"We could not place educational responsibilities in the hands of men and women who allowed a fear of others to influence their judgment. Such fear often causes confusion and prevents the development of latent capabilities and the raising of standards for anything but a position of servility.

"We have a great number of possibilities at our disposal. Build a self-improvement program and become literate. Always remember that it is good to grow with an institution and never let fear of failure stand in your way."

The Bank of America has become one of the world's largest and most important institutions under the administration of Mr. Giannini. From humble beginnings, it has grown and developed by a tireless drive to serve the community, and has been broadened into the major financial institution that it is today.
