

Wedding Plans Entirely Revised By Yvonne Gay

Those who have been wondering of late why Yvonne Gay and Bob Aldrich's wedding plans seemed to have come to an almost complete stand still will be interested in knowing that rather than standing still the original plans have been completely revised.

With the wedding date only two weeks off—Sept. 7, exactly—Yvonne comes forth with the announcement that her marriage will be solemnized at the summer home of Mr. and Mrs. Peter Markey in Kingsville, Ont., rather than at St. James Episcopal Church as planned about the first of September when her wedding arrangements were originally announced.

It is the war that raised havoc with Yvonne's first plans and inasmuch as the government refused to issue special dispensations to allow all of her Canadian relatives and they number something like 30 or 40—to enter the United States for the wedding she did the next best thing and moved her wedding over to the Canadian border.

The legality of law, Warner L. Forsyth, performing the ceremony as originally planned is still being disputed, but every attempt is being made to iron out this wrangle.

One of the first showers for the bride-elect was given Monday afternoon at the Detroit Golf Club when Mrs. Louis E. Aldrich entertained Miss Gay at a luncheon. A number of other parties are also being planned for her.

From the Women's Angle

By NELLIE HURLEY MINIFIE

In my endless search for social news I called one home last week to find that Mrs. So-and-So was out for the afternoon and would not be back until dinner time. The maid informed me, not chasing butterflies with her very young daughter. My first impulse to giggle was stifled when I saw a flash it came to me that there was a little girl who could well be the envy of all our oldsters whose mothers never quite found time to be young with us and to play our simple, childish games.

Here is a little girl whose mother is not an adult too old and dignified to skip rope and play hopscotch. She is a little girl who is blessed a thousand fold.

I like to think that this woman is typical of modern American mothers. I like to think that our modern mothers, without a moment's hesitation, will strap a pair of roller skates to their best pair of shoes and go sailing down the street, the wind whipping their skirts and ruffling their hair as they race their daughters.

Renfrew Dance Proves Incentive For Small Parties

Last year when Mrs. Charles Renfrew threw open the doors of her home on Henley some for a dance on her lovely 400 foot front porch she had so much fun at her own party that she decided it should be done each year.

And so another year has rolled around and the Renfrew's friends have been tendered invitations for a dance Saturday evening. Attending this year will be more than double the invited guests at last year's party. Between 50 and 75 are expected at Saturday evening's function.

A local orchestra will provide the music.

Several dinner parties are being given to precede the dance including one by Mr. and Mrs. Paul E. Minsel, of Westwood drive, who have invited 12 guests for a buffet style dinner.

Mr. and Mrs. Fred M. Dorris will also entertain at a buffet dinner. The Lawrence C. Howes will be hosts at a cocktail party and Mr. and Mrs. M. D. Archangel will also entertain before the dance.

And not all of the parties preceding the function are being given out of either for Mr. and Mrs. A. D. Wilkinson, of Grosse Pointe, have asked a few friends in for a small party before coming out here to the dance.

Lucky little girl! Was young mother!

By KATHERINE W. GEORGE

Have you even on one of those so-called trips which make you wonder why you ever left home? Well, I have, just last week, in fact. It was the kind of trip on which, if you want to rough it, you should go to a hotel, but you find your high-hat, the only thing available is a roadside cabin. Worse than that, we very nearly failed to arrive at any place at all, good or bad, to lay our heads.

We headed toward Lexington, four of us under the roof of the first one we thought of, thinking we were overnight at a camp where modern cottages and cabins are for rent. We made our way to the hotel, where we found a telephone ahead for reservations and when we arrived at our destination in early evening, we found ourselves just one of a caravan of touring parties being turned away. All of America is on wheels this summer and weekend tourist traffic is pouring gold into native pockets along every highway and by-path.

We were not discouraged when we rolled on north and over north, stopping at every likely place and always with the same result. As the minutes, and then the hours, began to roll by, we grew increasingly impatient. Even our most ardent demands for beds and a roof over our heads seemed destined to go unfulfilled.

Finally, we turned back, thinking we might have to go all the way to Detroit again and spend what was left of the night in a hotel there, which would be definitely an anticlimax, but not as great a one as returning home bag and baggage. But in Lexington we again we wanted to try the hotel, which we had laughingly passed up earlier, and there we fell heir to the last two vacant rooms in the house and at a tariff that would have put us up at the Book-Cadillac.

Ah me, the simple life! Anyway, the place was clean. But when you said that, you've said everything. Our rooms were on the roof of the hotel, and our hot water went with them (fortunately, we had some with us). Also, the little matter of blankets was overlooked, but the night was warm. It was a little more than we wanted to try the hotel, which we had laughingly passed up earlier, and there we fell heir to the last two vacant rooms in the house and at a tariff that would have put us up at the Book-Cadillac.

Of course, there was a bath on each floor—no tub or shower, though, but by that time we were not fussy. And the first occupant, we found on investigation, had to be rechecked through a room which was locked. This struck us as a bit unorthodox, so we inquired about it of the local youth in charge. But he just laughed it off with the statement that the room was rented. He said there were knotted ropes in our rooms which, sure enough, there were, and if the place caught fire in the night we could just leap out the window, carrying the ropes with us of course, and shinny down to the ground.

There was a mystery about too, which was causing considerable excitement—the mystery of Room 17. It seems the clerk had rented No. 17 to three different couples, collected all the rentals and all three had disappeared temporarily. He could not remember who the couples were and, having no other rooms, he was unable to either to know what to do with them when they returned, expecting and demanding to be housed. He was still pondering this problem when we went to bed and we never learned how he solved it.
