portation Act of 1940.

Toward a

A NEW note of understanding has come into the American Public's thoughts con-

It is now recognized that the coming of new forms of transportation has brought about disruption of the normal transportation situation. These new agencies must be

properly fitted into the nation's distribution

system if the best interests of the public are

to be served. And certainly that program

must include attention to the present dis-

ordered and unfair regulation requirements

under which the railroads are the worst

lic in recent years has sought to rectify this

injustice. Congress, in 1935, and the various states have passed laws to this end. This

year Congress enacted the so-called Trans-

line must be made before the railroads are

on a parity with their competitors. To achieve

equality will not harm other forms of trans-

and definitely will be in the public interest. Our members of the Michigan legislature

and our representatives in Congress are

urged to exercise justice, fairness and com-

mon sense in considering any legislation in-

tended to bring equality into our transpor-

Some folks still can't believe their eyes

oing over Buick dealers' reports G on our 1941 models, we find an unusual thing happening.

Time and again cars come in for the usual inspections with an extra note of instructions - "Please check the gas gauge needle."

There's nothing wrong with those gas gauge needles - they work per-

But even after hundreds of miles, people mistrust their eyes when they

mark toward Empty-they don't see how it's possible for a car as big as Buick to go so far on so little.

But it does-and for good reasons.

The whole FIREBALL engine was designed and built to get the most good out of modern gasolines.

And the simple secret of Compound Carburetion is that it keeps your engine running on its most frugal diet for all normal driving - and provides full feed only when you need, want and call for the lift of extra

Meantime even the gears are helping

gear in a Buick gives you the econ-omy of the so-called "gas-saving" top speeds you hear boosted so enthusiastically.

is no small car that's setting these economy figures. There are all the room, size, impressiveness, comfort and downright thrilling performance you expect from a Buick

The big thing is, of course, that this

Maybe that's why people still hesitate to believe their own eyes.

We assure them, however-and you too-that it isn't because the needle's out of kilter that it goes down so slowly. It's because that needle's a Buick - a thrifty and thrilling 1941
