Hot Chowder Tastes Very Good on Winter Menus

There's something friendly and wholesome about a bowl of chowder on cold, crisp days. Long ago, New Englanders discovered how good this hearty dish could be. And now members of the home economics staff of Michigan State College recommend serving chowders as the main part of a luncheon or supper.

Chowder is usually thick with fish or vegetables, and some cook books call it "super-soup." It is a hot food that supplies the protein, minerals, and vitamins. Yet it is more interesting in texture and more appetizing in flavor than an ordinary crem soup. Salt pork gives it a distinctive flavor; and, in keeping with an old tradition, the real chowder is poured over crackers before serving.

Here is a typical fish-chowder recipe, which has been worked out by the federal bureau of home economics:

1½ pounds fresh cod, haddock, or any other large fish.
2 cups diced potatoes
1 cup diced carrots
1 quart water.
¼ pound salt pork, diced.
1 onion, chopped.
2 tablespoons flour.
1 pint milk.
Salt,
Pepper.

Cut the fish into small pieces and remove the bones and skin. Cook fish, potatoes and carrots in the water for 15 minutes. Fry the salt pork until crisp, remove from the fat, cook the onion in the fat for a few minutes, add the flour, stir until well blended and add the milk. Add this mixture to the fish and vegetables, add the salt and pepper, stir frequently and simmer for 10 minutes longer. Add more seasoning if necessary, and serve over crackers.

Mrs. Floyd Crouse To Entertain Club

Mrs. Floyd Crouse will entertain members of the Present Day club at her home on Smith street Tuesday at which time Mrs. Della Wilson will speak on "Advances in Sciences."

At a recent meeting of the group held at the home of Mrs. Victor R. Baden, also of Smith street, a patriotic playlet was presented which depicted various countries of the world and their effect on world affairs. In this playlet were Mrs. Harry Clark as Great Britain; Mrs. Glen Berry, Poland; Mrs. Roy F. Smith, China; Mrs. Phoebe Glassing, Finland; and Mrs. Horace Barrett, America.

Extension Group To Meet March 8

Fifth lesson of the Home Extension groups, "Kitchen Storage Space and Homemade Conveniences," will be given Friday, Mar. 8, at the Community House, at 10 a. m.

Mrs. Lola T. Dudgeon, County Home Demonstration Agent, will present the lesson.

U. of M. Women's Benefit Function To Attract Many

Mrs. Lewis B. Sappington, who is serving as general chairman of this event, is being assisted by Mrs. Robert F. Watt, Mrs. Cyril B. Lewis and Mrs. Hugh McLeese.

Among those who have signified their intentions of attending this benefit affair are Mrs. William S. Howell, Mrs. Ralph H. Scheel, Mrs. T. Hollister Mabley, Mrs. Beecher W. Compton and Mrs. Charles L. Chubbuck.

Try Roast Lamb For a Special Feast

Along with our finest linen, our best silver and our most fragile china, we think of a leg of lamb as a fitting climax for the special dinner.

The flavor of lamb is distinctive, and is enhanced by proper cooking. A lamb roast will be "all right" when cooked as a pot-roast —that is in a closed pan. But just give it a chance, by cooking it uncovered in an open pan, and you will get the true flavor of the lamb which will please every guest with the incomparable qualities of flavor, the juiciness, and the tenderness of properly roasted lamb.

Correct Roasting Method

Of course, cooking the roast in an uncovered pan isn't the only trick of the lamb-roasting trade. A leg of lamb should be roasted at a low temperature, an oven of 300° F., says Inez S. Willson, home economist. As an absolute guarantee of proper length of cooking time, a meat thermometer is the answer. The meat thermometer is inserted into the leg of lamb so that the bulb reaches the center of the thickest part. Care must be taken that it does not rest on bone, if the thermometer is to register the true internal temperature of the meat. When the meat thermometer registers 175° F., the lamb roast will be medium done; at 180° F., lamb will be well done.

The roast should be put on a rack in a roasting pan with the skin side down and the fat side up. Do not cover. Do not add water. No., it won't burn; instead you will have an abundance of rich drippings, a roast truly golden brown, tender, juicy, and flavorful.

To Serve With Lamb

Lamb combines nicely with many accompaning flavors. Of course, mint is the classic. Currant, lemon and cranberry are also appropriate tart accompaniments. Here's a good trick for flavor supreme. Rub a leg of lamb lightly —oh, ever so lightly—with a cut clove of garlic. Yes, it does do something to it.
