Her Preference

He—Do you read love stories?
She—No; I like to have them told to me.

Mr. Henpeck—Is my wife going out, Rose?
Maid—Yes, sir.
Mr. Henpeck—Do you know if I'm going with her?"

GAS TRUCK CATCHES FIRE

A fire which endangered hundreds of gallons of gasoline occurred early Sunday morning on Hunter boulevard at Hazel when the engine of a truck belonging to the Sun Oil Co. caught fire. The driver had nearly extinguished the blaze with a small chemical extinguisher when the department arrived.

WATER

(Continued From Page 1)

its option on five lots at $300 a lot. Baker must furnish an abstract showing clear title.

Also, the Commission authorized another test well 800 feet north in the same subdivision.

"In a few more years, we will need another well," Egbert told the Commission, "and if we make our test now, it will save us time and money when the need comes."

Buying the necessary land and making the second test is expected to cost between $1,500 and $1,800, Egbert reported.

Other Advantages

The Southfield well has other advantages, the city manager reported.

A 14-inch water main passes along Southfield, making it a simple matter to connect into the existing system.

In addition, Egbert reported that the top of the gravel formation, 549 feet above sea level, lies below the bottom of the city's West Well, on West Lincoln. The latter, the newest and most efficient of the city's wells, has its lowest extremity at 559 feet above sea level.

It is believed that the Southfield well is entirely separate from the vein on West Lincoln, or is connected only in a restricted way, making it likely that the Southfield well should produce even if the others fail.

Griffith Cites Other Side

Vernon Griffith, fire chief and head of the city wells department, said: "It looks pretty good, but you never can tell. We may be in a crater of some sort with no capacity at all."

Although the test well is more than 50 feet deeper than the other city wells, the water is forced by internal pressure to within 35 feet of the surface, making shallow pumping possible.

A preliminary chemical analysis showed the hardness slightly less than the other wells. No test was made for iron.

Many people have asserted that Birmingham has its water from Detroit; however, the cost would be prohibitive, officials have found.

Tuggey Will Sell Hills Subdivision

An announcement of considerable importance in the Birmingham real estate field came this week when it was revealed that Arthur J. Tuggey & Son have become general sales agents for the Birmingham Hills subdivision, situated west of Southfield road, and south of Lincoln, adjoining the Birmingham Golf Club.

New homes will be built in this area by the Arvid C. Petersen Co., of Detroit, of which Tuggey & Son are the Birmingham representatives. Both have been very active in the local market during 1940. Howard Tuggey is sales manager.

The subdivision is within the city of Birmingham and already is furnished with many improvements such as water and sewer.

The area was developed by the J. Lee Baker Co., which retains ownership in the present sales arrangement with Tuggey & Son.

Close Call

The middle-aged lady had bloomed when Murphy chuckled. "Has anyone seen me yet?"

"Sure, Murphy," said Pat, "and you've got it on."

"Right and I have," replied Murphy, casting solemnly at his form, "and it's a good thing we seen it or I'd have gone home without it."

The Arvid Petersen champion of the world took 2 hours and 30 minutes to make one move in a recent match.

Naturally there is a certain amount of jealousy in bridge-playing circles.
