War Destroys Wealth

By V. O. WATTS, Ph. D.

Did the World War of 1914-1918 make the rich richer and the poor poorer? Socialists and communists say it did...

But what are the facts? Remember first that a dollar would buy only half as much after the war because of the rise in prices and living costs...

What the Figures Show We must therefore ask "Did high incomes increase more than in proportion to the rise in prices or in proportion to the national income as a whole?"

According to the best available figures, the total income of persons getting more than \$100,000 a year did not rise as fast as living costs from 1914 to 1918...

Meanwhile the total income of persons getting less than \$5000 rose faster than prices and cost of living. By 1918 they had 16 per cent more real buying power...

The share of the national income going to the rich therefore

Amateur photographers of Birmingham and Oakland counties have an opportunity to achieve statewide recognition and win one of \$4 prizes totaling \$300. The opportunity is the second annual Michigan camera contest sponsored by The Centric and other members of the Michigan Press Association.

The \$100 grand award photograph last year was taken with a \$10 camera; the \$50 second prize winner was made with an inexpensive box camera.

Three Prizes \$50 Each Three classes are available for the hobbyists, as follows: Class I—Portrait. First prize \$50 and blue ribbon; second prize, \$25, and ribbon; third prize, \$10 and ribbon. Fifteen awards of merit, \$1 each.

Each contestant may enter from one to four prints. Prints must be 8 x 10 or 9 x 11 inches. Do not color them. All prints must be mounted on white board, or larger, 16 x 20 inches.

Each picture must be accompanied by the following information: Name and address of entrant; Title and place picture was taken; Make of camera, and if possible the lens opening used for the photograph.
