

Bits of Birmingham

Three cheers for the Irish!
 Your scrivener is not what could be called a full-fledged Irishman, but some of his ancestors came from the Emerald Isle, so he at least wears a green tie on St. Patrick's Day, soon to be with us.

During the cold snap the early part of the week, we wondered how that robin reported here last issue was keeping his feet warm.

A report from a Knox avenue home, telling of a "suspicious car" parked out in front, brought police to the scene in a hurry. It was only a youthful pair, who were told to move on.

Mrs. Frank W. Hieby, 608 Brown street, complained to police of a noisy motorcycle on Brown street. Can this be the same one which has been such a headache to Commissioner Lawrence Hulbert?

Six speeders were arrested Sunday last on Saturday, most of them on Hunter boulevard.

Principal Ray Bechtold knows for certain now that the girls' sewing classes at the High School are rampant. He went in the room Monday with a coat sleeve torn loose from its moorings, and the seam was seen again. It was not revealed who Mr. Bechtold had taken a swing at, if any.

Mrs. J. F. Parlin informed police Saturday night that a prowler was around her house. Sgt. Earl Moody and Patrolman Ralph Bell arrested two men they found walking nearby and took them to the station for questioning. Nothing could be proved and they were later released.

Mrs. Evelyn Miller, 740 West Lincoln avenue, hopes the skunk problem is under control. Over in that section of town, near many open fields, the striped animals have been a nuisance for many months, and the Miller boys have killed about nine, it was said. Last week, one was trapped and it was the pleasure of Patrolman Robert Emmett to shoot it and the privilege of Dog Catcher Herbert Rolph to bury it. "I told my boys I dis-

it's knuck whether they or Mrs. Miller ought to be buried," Mrs. Miller informed this wanderer.

C. N. Siegel, of Barden road, Bloomfield Hills, will speak on "Modern Welding" when the Englewood Valley group of the American Society for Metals meets Tuesday at the Durant Hotel in Flint.

We got in the current issue of the magazine published by the Detroit University Club the following items, purportedly found by one of the members, in a corridor of the Buell building:

- EXPENSE ACCOUNT, NOV. 1-23, 1932**
- 11-1 Advertisements for girl stenographer \$50
 - 11-2 Violet—new stenographer 65
 - 11-8 Week's salary for stenographer 15.00
 - 11-9 Roses for stenographer 3.00
 - 11-11 Candy for wife 7.15
 - 11-13 Lunch with stenographer 6.25
 - 11-15 Week's salary for stenographer 20.00
 - 11-17 Movie tickets for self and wife 8.00
 - 11-18 Theatre tickets for self and wife 7.50
 - 11-19 Theatre tickets for self and stenographer 7.50
 - 11-20 Candy for wife 25.00
 - 11-21 Theatre and dinner with Lillian 21.75
 - 11-23 Fur coat for wife 625.00
 - 11-23 Advertisement for male stenographer 25.00
- Dr. and Mrs. William O. Merrill** of West Long Lake road, have a personal interest in the fate of their home, "Willow-way." And little wonder, for every stone in the fireplace was gathered by the Merrills. Excursions into the country yielded the stones that ranged in size from a pebble to an overgrown rock.
- With Henry Siegel,** well-known Detroit symphony violinist, assisting artist, The Normal College Symphony Orchestra, of Ypsilanti, will present its sixth XI concert this Sunday afternoon, March 17, in Pease Auditorium, Ypsilanti. Concerts start promptly at 4:00 p. m. and are free to the general public. Marius Fossenkemper is conducting.
- A talkative sailor** from Pratt, Sat down by a male PI chat. He wore up in bed. A day later and said: "I sure got a kick outa that."

Felt and Silk Toppers to Bob in Easter Parade

Perfect for the Easter parade are these fluttering spring hats from the collections of important American modistes. The present hat, left, designed by Jeanne Tete, is a soft crown studded in haphazardly with Lilly Dore's hula hula bits, of suave plian straw in a soft shade of meadow green, is cleft in the middle like a fan's hoof. The crown is of Roman striped silk, and it ends in a feather scarf. The straw bits may be removed and the draped crown worn separately.

I'll Leave It to You

By JOHN DENLER

If you are still inclined to wonder how our politicians can successfully continue to fool almost all of the people all of the time, you should find especially interesting the results of a recent survey of public opinion conducted by the New York Stock Exchange, which will present its sixth XI concert this Sunday afternoon, March 17, in Pease Auditorium, Ypsilanti. Concerts start promptly at 4:00 p. m. and are free to the general public. Marius Fossenkemper is conducting.

B'ham Red Cross Active in Making Refugee Garments

Conventional robes, dresses and knitted articles, made in the Birmingham Red Cross workshop were included in the shipment made last week by the Oakland County Chapter.

Eighty-four women's and girls' dresses, 132 sweaters, 70 pairs of socks and 4 helmets, 12 hospital bed-shirts, and 10 convalescent robe-covers, all of which were made under the direction of Mrs. E. G. Hatch, chairman of the Birmingham workshop.

Workers now each Tuesday at the Birmingham Community House and the finished garments are sent to civilian refugees in Europe.

Miss Joretta Porritt and Mrs. Carlton Patterson have acted as a motor corps, securing materials and delivering the finished garments.

Mrs. O. W. Kay, chairman of production for Oakland County, announces that garments for local distribution have also been produced as usual during the past few months.

Chairman Norman H. Davis of the American National Red Cross will deliver a personal report of the progress of war relief operations in Europe over WWI, Saturday, March 18, from 6:30 to 8:15 p. m.

Pork Now Popular With Low Prices Aiding Consumer

Pork in Michigan households gains more popularity, at least with those who pay the food bills, this winter, for low prices make the most attractive purchase.

This leads home economics staff members at Michigan State College to make a few suggestions on best uses and methods of preparation.

Cuts of pork are easy to roast because the meat usually is tender and because the natural fat insulates it, sufficient to insure the meat self-basting.

Especially the pork loin is easy to cook because it can be purchased in a size suitable for roasting almost any family. Fresh ham makes another easily prepared roast and even the shoulder is easy to carve if the bone is removed to be replaced, perhaps, by a savory stuffing. With apples plentiful, the usual accompaniment of apple sauce makes another easily prepared dish.

Thorough cooking is required at an even temperature. Pork should never be served if streaks, chops or roasts still show any trace of pink in the juices. This might be a trying, pungent present, but sufficient heat can kill the trichina.

Proper temperatures for roasting range between 325 and 350 degrees Fahrenheit. Roasting time should be 25 to 30 minutes a pound, although a stuffed shoulder weighing about four pounds will require about three and one-half hours. A constant-temperature roaster says pork is done when the inside temperature of the meat is 182 to 185 degrees.

Lions Club Hears Orchard Lake Pro

Frank Syron, "pro" at Orchard Lake Country Club, was the guest speaker at the luncheon meeting of the Lions club held Wednesday at the Community House. Syron spoke on the fundamentals of golf and also showed moving pictures of the five points of the game. He was introduced by Dr. A. L. McAughton.

An attendance contest was inaugurated at the meeting Wednesday and will continue for eight weeks. Captains of the teams are John Spinkman, Dorval Symons and Claude Morrow.

Wives and friends will be guests of club members at a roller skating party at the Municipal Auditorium on Keego Harbor Monday evening at 8 o'clock.

Gain Is Predicted In Maple Syrup Prices This Year

That unique American operation—tapping maple trees to obtain sap for sugar and syrup—ought to be put to full use in Michigan this spring this year because of a predicted upturn in demand and prices.

Prophets of better prices and a good out-of-state demand are quoted by W. Ira Bull, extension forester at Michigan State College.

In one way, says Bull, Michigan might as well take advantage of the 1932 hurricane that swept New England and decreased the amount of syrup (western states an producer).

Another factor is in the increased national income with prospects bright for continued employment which the forester thinks should result in a greater demand and hence a firmer price for producers of maple products.

"An early and remember that a high quality product for table use," Forester Bull warns sugar both owners. "Do not force the product on the market at the beginning of the spring season as that will disturb buyers for any time period."

Information on tapping and boiling can be obtained by writing to the forestry department, Michigan State College, East Lansing.

Boys Questioned For Gravel Theft

Two boys, one 16 and the other 13 years old, were apprehended by police last Friday taking gravel from a pit in the rear of the Lambert property, Sheffield Estates, 14-Mile road, and Woodland avenue. The matter was taken up with the boys' parents, and the youths were released. Patrolmen George Stephenson and Robert Poyseroff worked on the case.

City Issues License to Beer Distributor

An initial mercantile license was issued Monday night to the Beech Street Sales, Inc., 121 Broadway. The company will operate a wholesale beer distributorship.

Bearing the Brunt Of It Radio and its general merits was the topic of conversation between several citizens.

"I'm listening to the radio now for some years," said Smith. "My family has decided to have a little orchestra of our own. My wife is learning to play the harp. When I'm learning to play the auto, I'm rather famous myself as a pianist, and Dave and Milton are learning the violin."

"What are you learning?" asked Powell. "I'm learning to hear."

Will Try to 'Plant' Blue Grouse Species

LANSING—Attempt to establish blue grouse in the upper peninsula is being made by the conservation department on request of the Northern Michigan Sportsman's Association.

The blue grouse, a North American species, is larger than the ruffed grouse, some individuals weighing three pounds. It is similarly colored and marked. Its native range covers several western states, including the Rocky Mountains. It survives severe climatic conditions in its native habitat, eats buds, pine, spruce and balsam needles when other food is not available, and may find upper peninsula conditions to its liking.

Etiquette (Mother, at dinner): "Peggy, darling, you should not rub your nose with your spoon."

"Peggy: "Oh, Mother, ought I to have used a fork?"

French Toasted Cheese Sandwich with TOMATO CREAM SAUCE

By Dorothy Greig

A GLORIFIED sandwich is a good bet for Sunday supper, or for any other time you do not want to fuss much and still must really eat something to the table.

The one I give you here calls for just ordinary every day things—cheese, bread and tomato sauce—items every woman has on hand.

Many a time this sandwich has come to the rescue when unexpected guests turned up, and "there wasn't a thing in the house to eat."

The Sandwich:
 12 slices of bread
 6 large slices cheese (about 1/4 inch thick)
 2 eggs
 1 cup milk
 2 tablespoons butter

Trim crusts from bread. Put a slice of cheese between two slices of bread to make a sandwich. Then dip sandwiches into egg and milk mixture, brown on both sides in melted hot butter. Brown slowly so that the cheese heats and melts. Make 6 sandwiches.

Tomato Cream Sauce:
 1 can condensed tomato soup
 2 cans tomato sauce
 Combine the tomato soup and cream. Heat and serve over the French Toasted Cheese Sandwiches.

Taft's Plan

Senator Robert A. Taft, of Ohio, seeking the Republican presidential nomination, suggests a study of government by a group of "practical business men" and "scholars," expressing the view that such a study would show what restrictions of twenty-five to fifty per cent could be made in government departments to produce a balanced budget.

Jewelry Puts New Color in Dresses

New spring costume jewelry can change completely the appearance of a black or navy "basic" dress originally finished with white collar and cuffs. Flowers and leaves are used to fashion a smart necklace and matching bracelet. Earrings of simulated aquamarines, with pin to match add a different touch.
