## Fashion Tips

It has been a long time since suits were as popular as they seem to be this spring. The line is definitely longer for jackets than it was for those of last year.

Some of the newest suits have buttons on the front, some to the side, and others to the back. Most of them are large pocketed and make the suits look definitely different from their last year's counterparts.

Other neoplasms have pockets—some to the front, some to the side, and others to the back. Most of them are large pocketed and make the suits look definitely different from their last year's counterparts.

Even the restaurant suit still holds its own and can enter a night club in a very tailored suit but look very feminine after reviewing the jacket.

An old financier was very ill and a friend, to cheer him up said: "Man, you'll fool the doctor and live to be a hundred."  
"No, my friend," said the aged banker, "that wouldn't be good finance. Why should the Lord wait till I reached 100 when He can tick me up at any moment?"

In A Manner of Speaking  
"Is it true that Mind is losing her figure?"  
"If you can call gaining a lot more losing it."

Hub (at supper table)—What's the idea of all this canned stuff?  
Wife—I've canned the cook clear.

Picture postcard from a world-touring father to his son in college: "This is the cliff from which the ancient Spartans leapt to throw their defective children. Wish you were here—Dad."
