Our Sales are Swell—and so are the deals your Buick dealer is making!

What to do when the bug bites you!

FIGURES show that about one out of every five able-to-purchase new-car buyers really wants a Buick more than any other car.

Not all will buy one. Too many of them without even getting actual figures will shake their heads and sigh, "Nope! A car that big and handsome must be out of my reach!"

You'll be smarter than that, we know. When the bug to own a Buick bites you, you'll figure that a car as talked-about as Buick must be looked at first—if you're going to have anything to go on in judging 1940 values.

You'll realize it doesn't cost a cent to find out how one feels under your own hand and what the delivered prices are. So you'll walk in, please, to the nearest Buick dealer and boldly say:

"Let me have a good look at that car that's showing the rest of 'em what modern style is.

"Let me try out that big straight-eight engine that's electrically balanced after

assembly for smoothness to match a wrist watch's works.

"Show me those big soft coil springs you talk about and how they smooth out that rough stretch down the street—and what's the business—about recoil-mounted Knee-Action, heaviest frames at the price, five-foot front seat room in SUPER models, and six dozen new 1940 features?"

When you've got the answers through a good long ride—ask one more question: "How much?"

Current prices start at \$895\* for the business coupe, delivered at Flint, Mich. To this add transportation based on rail rates, state and local taxes (if any), and optional equipment and

accessories—though there will be few such "extras" you'll need.

That totals up to low delivered prices that are often only a few dimes more a day than on cars in the lowest-price class—so why hesitate or haggle?

When the bug bites you, get the facts—and you'll get a Buick and be happy!
