ELECTRIC COOKING!

Look at my bill-

(\$1.55 a month—average—

for a family of 3 persons)

electric range. Before I got my range, my cooking bill used to run a little lower.

"But for a matter of a few cents a week, an electric range is worth every bit of the difference! Just think:

l enjoy electric cooking for less than the price of a loaf of bread or a quart of milk,

"We have a small family—there are three of us—

but my neighbor next door cooks for five persons.

and HER bill for electric cooking runs about 45c to

week. So you see, an electric range costs less than

you think. I wish I'd known that long ago . . . I'd have bought my electric range much sooner."

Another electric servant worth "discovering" is the autômatic electric water heater. It prévides hat water at all hours—and it is to fully outeninit or you simply install it and farget it. Betrie water heating costroles han loc a dey (fer an average family of three).... The Detroit Edison Conigany.
