

# Baldwin High Gridders to Open Season Against Cranbrook Friday

## Heavier Leaf Team Appears Favorite At First Glance

BY ALLEN JONES  
Clashing Friday at Pierce Field to renew the friendly rivalry which has lapsed for the past year, Cranbrook will meet Birmingham Maple Leafs in the first grid tilt of the year.

Coach Raymond, of Cranbrook, will start the season with but three of last year's lettermen and one regular. But many of his sophomores are up and coming, striving to fill vacancies left by last year's veterans.

On the other hand, Baldwin's Coach George Wurster has surrounded his five remaining lettermen with boys who have seen plenty of action on the gridiron.

Birmingham's lineup will have Adams at center; Ballard or Porter, left guard; Kennedy or Hochstetler, right guard; Neely, left tackle; Gardfield or Jones, right tackle; Frank Armstrong, left end; Jim Lee, right end; Howe, Armstrong, blocking back; Olson or Merrill, fullback; Hopkins, left half; Mack, right half.

Cranbrook's center post will be filled by either Yalle or Whiting, while guards will be Dunham and Baron. Bud Taylor seems set at one tackle position, while Camp or Stone will fill the other. Ends will be Treono and VanDusen; blocking back, Muzzy or Bink; fullback, Erb or Brown; halfbacks Nordlie and Hedler.

Coach Raymond expects to feel the loss of Tommy Tucker, "a good prospect for guards," who is absent at present with an injury. Meanwhile the Leafs were stung by the loss of two good men, Ken Kirby and Jack Roberts, both of whom are ineligible this season.

Coach Raymond feels that the Cranbrook eleven, "Short on experience but long on spirit will be out for the fun of the game, regardless of the score."

Coach Wurster refused to forecast the outcome but declared, "A good brand of ball will be played by both sides."

## Work Is Begun On Variety Show

A search for talent for the all school variety show, sponsored annually by the Washington Group, was conducted last week at Baldwin High School by Miss Ruth Hill and Miss Nina Kitts, directors. Questionnaires were issued to every student in the school, giving each an opportunity to say on what part of the show he preferred to work.

Information called for on the questionnaires included specialty numbers, novelty dances, and committee work for script writing, stage productions, speaking parts, etc.

A central committee was named and met Friday. As yet, the show is without a name. The directors this year are especially anxious for the students to make their own show. Suggestions from students are welcome.

Music for this show is arranged in the hands of Victor Ulrich, director of vocal music.

BY ANN NONIMOUS  
To the sophomores and others uninitiated, this column, entitled Baldwin Highlights, is known far and wide as the dirt depot. Its aim is to overhear accurately all comings and goings of the Shain gang, et al. . . . Be you member of said gang or not, keep to the straight and narrow or be in danger of having your indiscretions immortalized in printer's ink. . . . Something interesting should develop. . . .

Well, English class, and my conscience has overtaken me so I'll see you Thursday next. And in the meantime—

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

YOU'LL like the size of this trim new Buick SPECIAL for '41—its room, its softer ride, its Permi-firm steering, its fresh smart style and all that.

But what you'll go for is what happens under that broad bonnet—the thrill and the thrifft you get from that husky, big, 115-hp. Buick FIREBALL Eight.

For in each flame-packed cylinder of that silk-smooth power plant a flaring ball of fire is set off with each spark-leap.

Packed to higher compression than ever before, fuel gives up more power and more mileage—power when you need it, economy throughout the whole driving range.

Indeed, so great is the power at your command that at 30 you use only one-eighth of the energy at your disposal. All the rest is there waiting for pick-up, hill-climb and sudden getaway.

Even at 50 you use less than one-quarter of your available power, and at 75 still have nearly a half "on call" for emergency use.

More than that, to this engine you can likewise add Compound Carburetion—and step up both power output and your mileage. At 30 you'll get nearly one and one-half more miles per gallon, at 50 almost two, and at 70 an extra mile and one-fifth.

But that's just one side of the story—the facts side. Only one thing will give you the stirring feel of Buick's thrill-packed behavior on the road.

That's a demonstration—and it's yours for the asking. When will you be in to ask for it?
