Two games played two weeks ago. That's a fine start to a hard basketball schedule. The Presidents of Keego Harbor were defeated 27-17 while the Cranbrook Cranes went down to defeat by the score of 43-20. Of the 270 points scored by the Maples, Benjamin Therian, lanky center, contributed 12 which is more than a third of the total.

An able replacement was found for Dennis Therian who graduates in the mid-year term in the person of junior center, Neppell Wright, who scored 12 points in the Cranbrook game although he was not in over half the time. A little more speed on his part and we can expect to see a lot of this boy in future.

Local Merchants Hiring Students

Christmas time inevitably brings a large increase in the job demand and the guidance department of Baldwin is preparing to meet this situation by establishing a closer contact with the merchants of Birmingham.

A shot out of a gun, the "Gannon Ball" dance got under way at 9:30 Saturday night. The Community House was decorated with huge silver garlands, even Hitler was there, hanging in the center of the room.

Among the Detroit couples who came in a while a handsome couple was seen. Some of the couples included Margaret, Roy, and Bill Collins, Natalie Seaborn, Bill Hulbert, Abbie Reinwater and Roy Duff were seen talking together, probably of report, to Bonnie Wheeler and Jim Collins had a cake during intermission with Pat Daly and Don Bennett, Harry Lawson and Dave Nettis, were among the dancers.

BUICK BUILDS FOR DEFENSE

Here's a drive-suit that is a simple, sturdy steel rod, encased all the way from transmission to axle in a about torque tube.

So in spite of all the sleek good looks and trim beauty this Buick has better look a little deeper than sleek appearance.

For example, the type of engine your next car buy will have a lot to do with how efficiently you will use the gasoline you buy.

And Buick's engine is not only more efficient because it is a six-cylinder, but also because it's a Fireball straight-eight that squeezes extra power from every rationing of fuel.

Buick connecting rods are sturdier. Buick main bearings give twice as long under equal loads. Even

Buick wheels help get maximum mileage out of tires.

In a word, here's an out-of-the-ordinary car for out-of-the-ordinary times — a tough, rugged, far-traveling beauty that's up to the job, no matter how hard or long it may be.

So don't be satisfied to look — don't even be content to listen; go try this Buick — put it up against the toughest test you can conjure.

These days you need the best you can buy — and these days that's Buick.

Available at slight extra cost with Buick Special wheels, standard on all Buick Specials.
