

Hospital Drive Under Way - City Will Fight Tax Levy Case

"Cheating" is not good for the ones who do it. You don't cheat in later life, and get away with it. Schools that tolerate such "cheating" are guilty of a great wrong; for if we do not teach a student to cheat then it is to steal his knowledge.

We Visit Famous Carlsbad Caverns in New Mexico

TUCSON, Arizona, Feb. 10,

1941 - Situated upon a flat mesa, surrounded by mountains that are part of the Rocky Mountain range, the 25,000-population thriving city of Tucson "extended" its cordiality yesterday to Roy and Hedge and myself; Roy's family had come through the state at the hitch, the speedometer showing that exactly 2,483 miles were traveled on a trip which started a week ago today. We visited his son, John, in the morning, for at eleven we drove to Nogales, on the Arizona-Mexico border, where we board a train at the ocean port of Agua Prieta, 279 miles down the main Mexican coast on the gulf of California. At Guaymas we had dinner in last week's letter, and now we are in the city of Angel, who will give us a day's fishing on the Gulf—and again I plead with you Folks to be guilfible for any fish stories I may have later.

A Part from Fairland

Before I launch into a brief

description of our visit to the world-famous Carlsbad Caverns in New Mexico, I must tell you yesterday we saw a sight in this Arizona area that sounds like a page from some book on Fairyland. It concerns M. L. Reid, originally from the state of Oregon, who came to Tucson 14 years ago on a stretcher, and settled with a valley just eight miles out of this city of Tucson. He bought a acre of land covered with the usual desert mesquite, cacti, and similar thorny and unlovely growth, and turned it into a veritable Paradise. Reid has since expanded his health and is the chief booster and developer of the whole valley area of quite a number of square miles. By drilling wells at various points he has made more than two blades of grass grow where none grew before—and he plays in the spirit of the people of this state as a visitor comes for their first visit, to return for many more—some to remain as new members of this fast-growing community.

Holds City Liable For Broken Leg

On Dec. 4, Mrs. John C. Boerner, of 816 Pierce street, brought a suit against the city of Birmingham for \$1,000 damages for an injury she received in a fall on a curb on the southeast corner of Woodward and Pierce, and Monday night the notice of the mishap was filed with the Birmingham City Commission.

Maurice Cole, attorney for Mrs. Boerner, pointed out that the mishap took place at a spot where the curb had been cut for a garage entrance, and he charged that he was responsible for the sharp angle.

City Manager Donald C. Eberhart said he had turned the matter over to the police, and the police said the claim was not filed within the 60 days required by charter.

ORDER NEW PUMP

A \$665 pump assembly for the new Southfield well has been ordered by the City Commission.

On that day every American Legion post in the country will ask its membership and local World War veterans generally to participate in the campaign. The form will be in plaintext. It will chronicle the war.
